The NIQ is extended by one week with the same requirements:

The software should run in the COVENTORWARE environment.

It should be capable of modelling and simulating dynamic behaviour of MEMS components.

It should take into account both electrical and mechanical effects for simulation.

It should have a GUI for creating 3D MEMS structures.

It should have an interface to Matlab.

1 license is required for 2 years.

General Terms and conditions:

1. Vendors are requested to send their quotes (technical specs and prices separately) to the office of Prof S K Koul, DD (S&P) I.I.T. Delhi-110016, before 5 pm, Mar 8, 2013.

2. Quote should contain terms of payment, and should be valid for at least 90 days.
