We are in the process of buying two Vortex phase plates, the specifications of which are given below.

1). Vortex phase plates; Quantity required: 2(Two)

Specifications:

With provisions for generating vortices of different charges in the He-Ne laser wavelength of 632.8nm. The phase plate must be on a glass substrate. This phase plate is to be used to generate vortices of charges ranging from 1 to 8.

A typical arrangement of charges is shown below. The beam diameter is 10mm.

```
 4 4 4 4 4 4 4
 4 3 2 1 4
 4 5 4 4
 4 8 7 6 4
 4 4 4 4 4
```

You are requested to submit the Technical and Financial Bid's separately in sealed envelopes mentioning NIQ and Ref numbers on top of the envelopes so as to reach at the under mentioned address on or before 20/08/2015.

[Prof. P.Senthilkumaran, Physics Department, Indian Institute of Technology, New Delhi-110016]

TERMS AND CONDITIONS:

i. Kindly submit your quotation in FOB price.
ii. Payment will be made through Electronics transfer within one month after the delivery of the item.
iii. Submit dealership/agent ship certificates issued by the manufacturer.
iv. Mention the standard warranty.
v. Quotation should be valid for 90 days.
vi. Please include proprietary item certificate, if the items are proprietary in nature.
vii. The institute has the right to accept or reject any or all the quotations without assigning any reason.
viii. List of customers has to be provided to whom the similar items have been supplied in past.

(Prof. P.Senthil Kumaran) (Dr. Aloka Sinha) (Prof. D.S.Mehta) (Prof. M.R.Shenoy)
