CORRIGENDUM

With reference to the NIQ for Quotation for Benchtop Multi Ion Meter and Ion Selective Electrodes” following amendments to be followed by the bidders:

- Two bids (separate quotations for technical and financial bid) put together in a common outer envelope subscribing “Quotation for Benchtop Multi Ion Meter and Ion Selective Electrodes” instead of “Quotation for Suppressor and Column for Ion Chromatograph”

- ISE Resolution should be 0.1 mg/L or better.

- In note: the third point which reads as “All the items must be compatible for our existing Dionex Ion Chromatograph (ICS-1000) therefore both “Suppressor” and “Ion Exclusion Column” must be compatible with it.” is a typographical mistake therefore it should not be considered.
