Notice Inviting Quotation (E-Procurement mode)

INDIAN INSTITUTE OF TECHNOLOGY DELHI HAUZ KHAS, NEW DELHI-110016

Dated: 03/08/2017

Open Tender Notice No. IITD/BPHY(SP-1450)/2017

Indian Institute of Technology Delhi is in the process of purchasing following item(s) as per details as given as under.

Details of the item	UHV Sputtering System
Earnest Money Deposit to be submitted	Rs. NIL
Warranty	Warranty: 1 Years (+2 year optional to be quoted separately)
Performance security	5% of FOB value

Tender Documents may be downloaded from Central Public Procurement Portal <u>http://eprocure.gov.in/eprocure/app</u>. Aspiring Bidders who have not enrolled / registered in e-procurement should enroll / register before participating through the website <u>http://eprocure.gov.in/eprocure/app</u>. The portal enrolment is free of cost. Bidders are advised to go through instructions provided at 'Instructions for online Bid Submission '.

Tenderers can access tender documents on the website (For searching in the NIC site, kindly go to Tender Search option and type 'IIT'. Thereafter, Click on "GO" button to view all IIT Delhi tenders). Select the appropriate tender and fill them with all relevant information and submit the completed tender document online on the website <u>http://eprocure.gov.in/eprocure/app</u> as per the schedule given in the next page.

No manual bids will be accepted. All quotation (both Technical and Financial should be submitted in the E-procurement portal).

<u> </u>	<u>Schedule</u>
Name of Organization	Indian Institute of Technology Delhi
Tender Type (Open/Limited/EOI/Auction/Single)	OPEN
Tender Category (Services/Goods/works)	GOODS
Type/Form of Contract (Work/Supply/ Auction/ Service/ Buy/ Empanelment/ Sell)	SUPPLY
Product Category (Civil Works/Electrical Works/Fleet Management/ Computer Systems)	Others
Source of Fund (Institute/Project)	Project Code: RP03442G
Is Multi Currency Allowed	YES
Date of Issue/Publishing	03/01/2018(18:00 Hrs)
Document Download/Sale Start Date	03/01/2018(18:00 Hrs)
Document Download/Sale End Date	24/01/2018(15:00 Hrs)
Date for Pre-Bid Conference	N/A
Venue of Pre-Bid Conference	N/A
Last Date and Time for Uploading of Bids	24/01/2018(15:00 Hrs)
Date and Time of Opening of Technical Bids	26/01/2018(15:00 Hrs)
Tender Fee EMD	RsNIL/- (For Tender Fee)RsNIL/-(For EMD)(To be paid through RTGS/NEFT. IIT Delhi Bank details are as under:Name of the Bank A/C: IITD Revenue AccountSBI A/C No.: 10773572622Name of the Bank: State Bank of India, IIT Delhi, Hauz Khas, New Delhi-110016IFSC Code: SBIN0001077MICR Code: SBININBB547(This is mandatory that UTR Number is provided in the on- line quotation/bid. (Kindly refer to the UTR Column of the Declaration Sheet at Annexure-II)
No. of Covers (1/2/3/4)	02
Bid Validity days (180/120/90/60/30)	180 days (From last date of opening of tender)
Address for Communication	Dr. P K Muduli, Department of Physics, IIT Delhi
Contact No.	91-11-26591377
Fax No.	91-11-26581114
Email Address	muduli@physics.iitd.ac.in

Chairman Purchase Committee (Buyer Member)

Instructions for Online Bid Submission:

As per the directives of Department of Expenditure, this tender document has been published on the Central Public Procurement Portal (<u>URL:http://eprocure.gov.in/eprocure/app</u>). The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at:

http://eprocure.gov.in/eprocure/app

REGISTRATION

- Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL:<u>http://eprocure.gov.in/eprocure/app</u>) by clicking on the link "Click here to Enroll". Enrolment on the CPP Portal is free of charge.
- 2) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- 3) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- 4) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.
- 5) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSCs to others which may lead to misuse.
- 6) Bidder then logs in to the site through the secured log-in by entering their userID / password and the password of the DSC / eToken.

SEARCHING FOR TENDER DOCUMENTS

- There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, organization name, location, date, value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as organization name, form of contract, location, date, other keywords etc. to search for a tender published on the CPP Portal.
- 2) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.
- 3) The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS

- 1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- 2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid

documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

- 3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS formats. Bid documents may be scanned with 100 dpi with black and white option.
- 4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Space" area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS

- 1) Bidder should log into the site well in advance for bid submission so that he/she upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- 2) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- 3) Bidder has to select the payment option as "on-line" to pay the tender fee / EMD as applicable and enter details of the instrument. Whenever, EMD / Tender fees is sought, bidders need to pay the tender fee and EMD separately on-line through RTGS (Refer to Schedule, Page No.2).
- 4) A standard BoQ format has been provided with the tender document to be filled by all the bidders. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. Bidders are required to download the BoQ file, open it and complete the white coloured (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

OR

In some cases Financial Bids can be submitted in PDF format as well (in lieu of BOQ).

- 5) The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
- 6) All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done.
- 7) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- 8) Upon the successful and timely submission of bids, the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.
- 9) Kindly add scanned PDF of all relevant documents in a single PDF file of compliance sheet.

ASSISTANCE TO BIDDERS

- 1) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.
- 2) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk. The contact number for the helpdesk is 1800 233 7315.

General Instructions to the Bidders

- 1) The tenders will be received online through portal <u>http://eprocure.gov.in/eprocure/app</u>. In the Technical Bids, the bidders are required to upload all the documents in .pdf format.
- 2) Possession of a Valid Class II/III Digital Signature Certificate (DSC) in the form of smart card/e-token in the company's name is a prerequisite for registration and participating in the bid submission activities through https://eprocure.gov.in/eprocure/app . Digital Signature Certificates can be obtained from the certifying agencies. details of which are available authorized in the web site https://eprocure.gov.in/eprocure/app under the link "Information about DSC".
- 3) Tenderer are advised to follow the instructions provided in the 'Instructions to the Tenderer for the e-submission of the bids online through the Central Public Procurement Portal for e Procurement at https://eprocure.gov.in/eprocure/app .

Department of Physics Indian Institute of Technology Hauz Khas, New Delhi-110 016

NOTICE INVITING QUOTATIONS

Dated: 03/01/2018

Subject: Purchase of UHV Sputtering System

Invitation for Tender Offers

Indian Institute of Technology Delhi invites online Bids (Technical bid and Commercial bid) from eligible and experienced OEM (Original Equipment Manufacturer) OR OEM Authorized Dealer for **supply and installation of UHV Sputtering System** with (warranty period as stated at page #1 of this tender) **on site comprehensive warranty from the date of installation of the material** as per terms & conditions specified in the tender document, which is available on CPP Portal <u>http://eprocure.gov.in/eprocure/app</u>

TECHNICAL SPECIFICATIONS:

	UHV Sputter System	
1.	Main Vacuum Chamber (Qty.:1)	
	a. Cylindrical style chamber, 304L SS, electro-polished (box-style chamber not desired)	
	b. Hinged top lid for ease of access	
	c. (2) 6" CF viewports with integrated shutters, capable of removing shutter drive without	
	breaking vacuum preventing inexperienced users from operating shutter.	
	d. Spare 6" CF port in bottom center of chamber positioned at normal incidence to substrate	
	e. Ports available for gauge heads (3)	
	f. Ports available for future RGA	
	g. Port for future thickness monitor	
	h. Chamber designed to incorporate load-lock	
	i. Port available for future connection to vacuum chamber allowing in-situ transfer	
	j. Chamber must be designed to incorporate RHEED as future upgrade. Vendor must guarantee	
	RHEED compatibility without the need for additional magnetic shielding.	
	k. All unused ports must be blanked off	
	1. Transfer arm must be built into load-lock chamber (does not occupy rack space or add to	
	footprint)	
	m. System should be capable of accommodating up to (7) 2" con-focal sputtering sources, and (1) 6" CF port to accommodate (1) 2" direct deposition sputtering source, in-situ stress	
	measurement device, an ion source, or an evaporation source	
2.	Load-lock chamber with transfer arm (Qty.: 1)	
	a. The load-lock chamber should be fitted with vent-valve, and suitable ports for mounting rough	
	vacuum and HV pressure sensors, etc.	
	b. VAT or equivalent make Gate valve (Qty.:1) of flange size appropriate to connect the main	
	deposition chamber and the load lock chamber via the transfer arm	
	c. Low volume aluminum chamber body machined from single billet.	
	d. easy access, removable loading door	
	e. Magnetic transfer system with custom susceptor for transferable substrate carrier.	

	f. Full range vacuum gauge
3.	Instrument Rack (Qty.: 1):
	a. Welded stainless steel frame with open frame work design
	b. Chamber must not be enclosed with panels
	c. Durable powder coated table top
	d. Utilities must be located on backside of instrument rack mounted in removable boxes for
	ease of access (please show picture of design)
	e. Instrument rack must have space available to accommodate additional future power
	supplies (not including those listed in the description)
	f. Instrument rack must not exceed 100"L x 30"W
	g. Must have table top space available for work space at standing height, standalone
	chamber with separate instrument rack not desirable.
4.	Vacuum Pumps :
т. 	Pumping for Main chamber
	a. Pfeiffer/Edwards or equivalent make turbopump with pumping speed \geq 700 l/s (for
	Nitrogen gas) and delayed vent valve (Qty.: 1):
	b. N ₂ purge to allow oxygen processing
	c. <i>Pfeiffer</i> or <i>Leybold</i> or Alcatel or equivalent make >8.2 cfm dry backing pump with
	integral anti-suckback valve(Qty.: 1):
	d. Interconnecting plumbing and hardware.
	Pumping for Load-lock chamber
	a. <i>Pfeiffer</i> or <i>Leybold or equivalent</i> make turbo-molecular pump with delayed vent and TMP
	controller and pumping speed ≥ 80 lps for load lock chamber. (Qty.: 1):
	b. <i>Pfeiffer</i> or <i>Leybold</i> or <i>equivalent</i> make Dry pump with appropriate technical specifications
	so as to be compatible with backing the turbo pump of the load-lock chamber (Qty.: 1).
5.	Sputtering Guns (Qty.: 4):
	a. System must include ≥ 4 UHV compatible 2" con-focal magnetron sputtering guns with
	chimney, pneumatic shutter, and gas injection capability.
	b. 2" sputtering gun must be able to accommodate up to 0.125" thick magnetic targets
	including pure iron.
	c. All guns must have modular magnet design to allow balanced, unbalanced, and magnetic
	material configurations. Dedicated gun for magnetic material sputtering is not accepted,
	must have versatility.
	d. Magnets must be located in vacuum, outside of cooling water, with Curie point of 200° C.
	e. Source chimneys must be designed to accommodate internal shielding that allows
	adjustment or manipulation of deposition profile.
6.	Power Supplies: (Qty.:2)
	a. 750W DC power supply (1000V, 1A), with integrated 4-way switchbox with all relevant
	cable. (Qty.: 1) b 200W RE neuron sumplies with sutematic matching network includes 4 way switchbay
	b. 300W RF power supplies with automatic matching network, includes 4-way switchbox with all relevant cable set. (Qty. 1)
7.	Vacuum Gauges (Qty.: 3):
<i>'</i> •	a. Gauge Package that includes (Qty.: 1) Convectron gauge, (Qty.: 1) 0.1 Torr Baratron gauge,
	a. Gauge Fackage that includes (Qty.: 1) convection gauge, (Qty.: 1) 0.1 For Datation gauge, and (Qty.: 1) nude ion gauge.
	b. Vacuum gauge controller must have ability to display up to 5 gauge heads.
9.	Substrate Holder (Qty. 1):
	a. Should accommodate up to 4" diameter substrate.
	b. Substrate rotation of \geq 40 RPM.
	c. \geq 850 °C heating via quartz lamps Capable of heating in O ₂ environment.

	d. 2" Z-motion for target-to-substrate height adjustability.
	e. RF/DC biasing capabilities while rotating / heating / depositing.
	f. Must have substrate gas ring to allow for reactive sputtering.
	g. Must use Ferro fluidic rotary feed through.
	h. Must have Dual PID heater control that automatically switches between high/low temp range
	without manual tuning
	C C C C C C C C C C C C C C C C C C C
	i. Overtemp protection +/- 1 degree °C temp stability
	j. Compatible with UHV
10.	Gas Handling and MFC (Qty.: 2):
	a. MFC gas lines for Ar and Reactive gas with Pneumatic isolation valves (Qty. 2).
	b. Ar plumbed to (1) sputtering source
	c. Reactive gas introduction at substrate surface via substrate gas ring.
	d. Capable of expanding and adding 2 additional MFC (total 4). Must include mounting space
	and software/hardware capacity.
11.	Pressure Control:
	a. VAT/Equivalent automatic pressure control for isolation and throttling (8"CF size) (Qty. 1).
	b. Automatic vent delayed valve on turbo-molecular pump
	c. Manual vent valve
	d. System must be designed for downstream pressure control
12.	Power Distribution system:
12.	a. System must take 1-phase, 220 VAC input voltage.
	b. Includes water and vacuum interlocks
	c. Includes (2) breakers for vacuum pump control, allows single breaker to turn turbo and
	mechanical pump on/off. Ease of operation for pump safety.
13.	Computer Control:
	a. Interfaces with (5) DC & (4) RF generators for control of output mode, setpoint, ramping &
	plasma detection
	b. Interfaces directly with solenoid pneumatics manifold, for control of shutters, gas isolation
	valves & spares
	c. Interfaces with VAT valve for: open / closed / throttle position
	d. Interfaces with Substrate Holder closed-loop PID heater controller for: on / off / temp.
	setpoint / T/C temp. feedback
	e. Interfaces with substrate rotation controller (On/Off Mode)
	f. Define and stack process layers to create processes
	g. Monitoring and data logging kW hrs. in software:
	h. Stores and runs processes
	i. 100+ separate password protected accounts for process layer & process security
	j. Auto shutdown of power supplies if: plasma not detected
	k. Auto abort of process if: plasma not detected / gas flow setpoint or temperature setpoint not
	reached
	1. Displays and data logs: shutter position / DC power feedback / Pulse Frequency and Reverse
	Time / DC bias feedback (for RF) / plasma verification / process pressure / gas flow feedback
	/ T/C temperature feedback / target kW hours / Abort Notifications
	m. A laptop computer should be provided for full computer control
14	n. Must include Excel Software Emulator, which allows remote recipe creation from outside lab
14.	Guarantees:
	a. Con-Focal Deposition Uniformity: +/- 2.5% over 4" diameter wafer with 5mm edge exclusion.
	b. Vendor must have in-house ellipsometry monitor to prove deposition uniformity at time of
	acceptance testing
	c. Base Vacuum: Better than or equal to 5.0×10^{-8} Torr

15.	Build Time:
	a. Must be ready for shipment within 12 weeks of order receipt
16.	Mandatory Accessories
	a. Water Chiller: Closed-loop chiller with +/- 0.1 C temperature stability control
	b. Transverse magnetic field substrate carrier with minimum 200 Oe and less than 2 degree skew
	c. Uninterrupted power supply : Suitable UPS (on line) of appropriate power (KVA) to provide sufficient power to run the: including the sputter system and chiller including pump and cooling circuit compressor. Minimum 30 min Needed. The UPS to be supplied with stand for batteries.
17.	Other Mandatory requirements
	a. A List of recent installations of the offered model in India should be provided.b. A list of service engineers available in India need to be provided.c. After sale service may be used as a component for technical evaluation of the equipment.

A complete set of tender documents* may be Download by prospective bidder free of cost from the website <u>http://eprocure.gov.in/eprocure/app</u>. Bidder has to make payment of requisite fees (i.e. Tender fees (if any) and EMD) online through RTGS/NEFT only.

Terms & Conditions Details

Sl. No.	Specification
1.	Due date : The tender has to be submitted on-line before the due date. The offers received after the
	due date and time will not be considered. No manual bids will be considered.
2.	Preparation of Bids: The offer/bid should be submitted in two bid systems (i.e.) Technical bid and
	financial bid. The technical bid should consist of all technical details along with commercial terms
	and conditions. Financial bid should indicate item wise price for the items mentioned in the
	technical bid in the given format i.e Financial Bids to be submitted in PDF format.
	The Technical bid and the financial bid should be submitted Online.
3.	EMD (if applicable): The tenderer should submit an EMD amount through RTGS/NEFT. The
	Technical Bid without EMD would be considered as UNRESPONSIVE and will not be accepted. The
	EMD will be refunded without any interest to the unsuccessful bidders after the award of contract.
	Refer to Schedule (at page 1 of this document) for its actual place of submission.
4.	Refund of EMD: The EMD will be returned to unsuccessful Tenderer only after the Tenders are
	finalized. In case of successful Tenderer, it will be retained till the successful and complete installation
	of the equipment.
5.	Opening of the tender : The online bid will be opened by a committee duly constituted for this
	purpose. Online bids (complete in all respect) received along with EMD (if any) will be opened as
	mentioned at "Annexure: Schedule" in presence of bidders representative if available. Only one
	representative will be allowed to participate in the tender opening. Bid received without EMD (if
	present) will be rejected straight way. The technical bid will be opened online first and it will be
	examined by a technical committee (as per specification and requirement). The financial offer/bid will
	be opened only for the offer/bid which technically meets all requirements as per the specification, and
	will be opened in the presence of the vendor's representatives subsequently for further evaluation. The
	bidders if interested may participate on the tender opening Date and Time. The bidder should produce
	authorization letter from their company to participate in the tender opening.
6.	Acceptance/ Rejection of bids: The Committee reserves the right to reject any or all offers without
	assigning any reason.
7.	Pre-qualification criteria:
	(i) Bidders should be the manufacturer / authorized dealer. Letter of Authorization from original
	equipment manufacturer (OEM) on the same and specific to the tender should be enclosed.
	(ii) An undertaking from the OEM is required stating that they would facilitate the bidder on a
	regular basis with technology/product updates and extend support for the warranty as well. (Ref.
	Annexure-II)
	(iii) OEM should be internationally reputed Branded Company.
	(iv) Non-compliance of tender terms, non-submission of required documents, lack of clarity of the
	specifications, contradiction between bidder specification and supporting documents etc. may lead to
	rejection of the bid.
	(v) In the tender, either the Indian agent on behalf of the Principal/OEM or Principal/OEM itself can
	bid but both cannot bid simultaneously for the same item/product in the same tender.
	(vi) If an agent submits bid on behalf of the Principal/OEM, the same agent shall not submit a bid on
0	behalf of another Principal/OEM in the same tender for the same item/product.
8.	Performance Security : The supplier shall require to submit the performance security in the form of
	irrevocable bank guarantee issued by any Indian Nationalized Bank for an amount which is stated at
	page #1 of the tender document within 21 days from the date of receipt of the purchase order/LC and
0	should be kept valid for a period of 60 days beyond the date of completion of warranty period.
9.	Force Majeure: The Supplier shall not be liable for forfeiture of its performance security, liquidated
	damages or termination for default, if and to the extent that, it's delay in performance or other failure to
	perform its obligations under the Contract is the result of an event of Force Majeure.

-	
	• For purposes of this Clause, "Force Majeure" means an event beyond the control of the Supplier and not involving the Supplier's fault or negligence and not foreseeable. Such events may include, but are not limited to, acts of the Purchaser either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
	• If a Force Majeure situation arises, the Supplier shall promptly notify the Purchaser in writing of such conditions and the cause thereof. Unless otherwise directed by the Purchaser in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.
10	
10.	Risk Purchase Clause : In event of failure of supply of the item/equipment within the stipulated delivery schedule, the purchaser has all the right to purchase the item/equipment from the other source on the total risk of the supplier under risk purchase clause.
	on the total risk of the supplier under risk purchase clause.
11.	Packing Instructions : Each package will be marked on three sides with proper paint/indelible ink, the
	following:
	i. Item Nomenclature
	ii. Order/Contract No.
	iii. Country of Origin of Goods
	iv. Supplier's Name and Address
	v. Consignee details
	vi. Packing list reference number
12.	Delivery and Documents:
	Delivery of the goods should be made within a maximum of 12 to 16 weeks from the date of the opening
	of LC. Within 24 hours of shipment, the supplier shall notify the purchaser and the insurance company
	by cable/telex/fax/e mail the full details of the shipment including contract number, railway receipt
	number/ AAP etc. and date, description of goods, quantity, name of the consignee, invoice etc. The
	supplier shall mail the following documents to the purchaser with a copy to the insurance company:
	1. 4 Copies of the Supplier invoice showing contract number, goods' description, quantity
	2. unit price, total amount;
	3. Insurance Certificate if applicable;
	4. Manufacturer's/Supplier's warranty certificate;
	5. Inspection Certificate issued by the nominated inspection agency, if any
	 Supplier's factory inspection report; and
	 7. Certificate of Origin (if possible by the beneficiary);
	8. Two copies of the packing list identifying the contents of each package.
	9. The above documents should be received by the Purchaser before arrival of the Goods (except)
	where the Goods have been delivered directly to the Consignee with all documents) and, if not
	received, the Supplier will be responsible for any consequent expenses.
13.	Delayed delivery: If the delivery is not made within the due date for any reason, the Committee will
15.	have the right to impose penalty 1% per week and the maximum deduction is 10% of the contract value
	/ price.
14.	Prices: The price should be quoted in net per unit (after breakup) and must include all packing and
14.	
	delivery charges. The offer/bid should be exclusive of taxes and duties, which will be paid by the
	purchaser as applicable. However the percentage of taxes & duties shall be clearly indicated.
	The price should be quoted without custom duty and excise duty, since IIT Delhi is exempted from
	payment of Excise Duty and is eligible for concessional rate of custom duty. Necessary certificate will
	be issued on demand.
	In case of imports, the price should be quoted on FOB/FCA origin Airport Basis only. Under
	special circumstances (eg. perishable chemicals), when the item is imported on CIF/CIP, please
	indicate CIF/CIP charges separately upto IIT Delhi indicating the mode of shipment. IIT Delhi will
	make necessary arrangements for the clearance of imported goods at the Airport/Seaport. Hence the
	price should not include the above charges. At any circumstances, it is the responsibility of the

	 foreign supplier to handover the material to our forwarder at the origin airport after completing all the inland clearing. No Ex- Works consignment will be entertained. "In case of CIF/CIP shipments, kindly provide the shipment information at least 2 days in advance before landing the shipment along with the documents i.e. invoice, packing list, forwarder Name, address, contact No. in India to save penalty/demurrage charges (imposed by Indian Customs). Otherwise these charges will be recovered from the supplier/Indian Agent."
15.	 Notices: For the purpose of all notices, the following shall be the address of the Purchaser and Supplier. Purchaser: Dr. P K Muduli, Department of Physics Indian Institute of Technology Hauz Khas, New Delhi - 110016.
	Supplier: (To be filled in by the supplier) (All supplier's should submit its supplies information as per Annexure-II).
16.	 Progress of Supply: Wherever applicable, supplier shall regularly intimate progress of supply, in writing, to the Purchaser as under: 1. Quantity offered for inspection and date; 2. Quantity accepted/rejected by inspecting agency and date; 3. Quantity dispatched/delivered to consignees and date; 4. Quantity where incidental services have been satisfactorily completed with date; 5. Quantity where rectification/repair/replacement effected/completed on receipt of any communication from consignee/Purchaser with date; 6. Date of completion of entire Contract including incidental services, if any; and 7. Date of receipt of entire payments under the Contract (In case of stage-wise inspection, details required may also be specified).
17.	 Inspection and Tests: Inspection and tests prior to shipment of Goods and at final acceptance are as follows: After the goods are manufactured and assembled, inspection and testing of the goods shall be carried out at the supplier's plant by the supplier, prior to shipment to check whether the goods are in conformity with the technical specifications attached to the purchase order. Manufacturer's test certificate with data sheet shall be issued to this effect and submitted along with the delivery documents. The purchaser shall be present at the supplier's premises during such inspection and testing if need is felt. The location where the inspection is required to be conducted should be clearly indicated. The supplier shall inform the purchaser about the site preparation, if any, needed for installation of the goods at the purchaser's site at the time of submission of order acceptance. The acceptance test will be conducted by the Purchaser, their consultant or other such person
	 nominated by the Purchaser at its option after the equipment is installed at purchaser's site in the presence of supplier's representatives. The acceptance will involve trouble free operation and ascertaining conformity with the ordered specifications and quality. There shall not be any additional charges for carrying out acceptance test. No malfunction, partial or complete failure of any part of the equipment is expected to occur. The Supplier shall maintain necessary log in respect of the result of the test to establish to the entire satisfaction of the Purchaser, the successful completion of the test specified. In the event of the ordered item failing to pass the acceptance test, a period not exceeding one weeks will be given to rectify the defects and clear the acceptance test, failing which the Purchaser reserve the right to get the equipment replaced by the Supplier at no extra cost to the Purchaser. Successful conduct and conclusion of the acceptance test for the installed goods and equipment shall
18.	also be the responsibility and at the cost of the Supplier. Resolution of Disputes : The dispute resolution mechanism to be applied pursuant shall be as follows:

	• In case of Dispute or difference arising between the Purchaser and a domestic supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules there under and any
	statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to the Director, Indian Institute of Technology (IIT) Delhi and if he is unable or unwilling to act, to the sole arbitration of some other person appointed by him willing to act as such Arbitrator. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.
	• In the case of a dispute between the purchaser and a Foreign Supplier, the dispute shall be settled by arbitration in accordance with provision of sub-clause (a) above. But if this is not acceptable to the supplier then the dispute shall be settled in accordance with provisions of UNCITRAL (United Nations Commission on International Trade Law) Arbitration Rules.
	• The venue of the arbitration shall be the place from where the order is issued.
19.	Applicable Law: The place of jurisdiction would be New Delhi (Delhi) INDIA.
20.	Right to Use Defective Goods If after delivery, acceptance and installation and within the guarantee and warranty period, the operation or use of the goods proves to be unsatisfactory, the Purchaser shall have the right to continue to operate or use such goods until rectifications of defects, errors or omissions by repair or by partial or complete replacement is made without interfering with the Purchaser's operation.
21.	Supplier Integrity The Supplier is responsible for and obliged to conduct all contracted activities in accordance with the Contract using state of the art methods and economic principles and exercising all means available to achieve the performance specified in the contract.
22.	Training The Supplier is required to provide training to the designated Purchaser's technical and end user personnel to enable them to effectively operate the total equipment.
23.	Installation & Demonstration The supplier is required to done the installation and demonstration of the equipment within one month of the arrival of materials at the IITD site of installation, otherwise the penalty clause will be the same as per the supply of materials.
	In case of any mishappening/damage to equipment and supplies during the carriage of supplies from the origin of equipment to the installation site, the supplier has to replace it with new equipment/supplies immediately at his own risk. Supplier will settle his claim with the insurance company as per his convenience. IITD will not be liable to any type of losses in any form.
24.	Insurance: For delivery of goods at the purchaser's premises, the insurance shall be obtained by the supplier in an amount equal to 110% of the value of the goods from "warehouse to warehouse" (final destinations) on "All Risks" basis including War Risks and Strikes. The insurance shall be valid for a period of not less than 3 months after installation and commissioning. In case of orders placed on FOB/FCA basis, the purchaser shall arrange Insurance. If orders placed on CIF/CIP basis, the insurance should be up to IIT Delhi.
25.	Incidental services: The incidental services also include:
	• Furnishing of 01 set of detailed operations & maintenance manual.
	• Arranging the shifting/moving of the item to their location of final installation within IITD premises at the cost of Supplier through their Indian representatives.
26.	Warranty:
	 (i) Warranty period shall be (as stated at page #2 of this tender) from date of installation of Goods at the IITD site of installation. The Supplier shall, in addition, comply with the performance and/or consumption guarantees specified under the contract. If for reasons attributable to the Supplier, these guarantees are not attained in whole or in part, the Supplier shall at its discretion make such

changes, modifications, and/or additions to the Goods or any part thereof as may be necessary in order to attain the contractual guarantees specified in the Contract at its own cost and expense and to carry out further performance tests. The warranty should be comprehensive on site.

- (ii) The Purchaser shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall immediately within in 02 days arrange to repair or replace the defective goods or parts thereof free of cost at the ultimate destination. The Supplier shall take over the replaced parts/goods at the time of their replacement. No claim whatsoever shall lie on the Purchaser for the replaced parts/goods thereafter. The period for correction of defects in the warranty period is 02 days. If the supplier having been notified fails to remedy the defects within 02 days, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expenses and without prejudice to any other rights, which the purchaser may have against the supplier under the contract.
- (iii) The warranty period should be clearly mentioned. The maintenance charges (AMC) under different schemes after the expiry of the warranty should also be mentioned. The comprehensive warranty will commence from the date of the satisfactory installation/commissioning of the equipment against the defect of any manufacturing, workmanship and poor quality of the components.
- (iv) After the warranty period is over, Annual Maintenance Contract (AMC)/Comprehensive Maintenance Contract (CMC) up to next two years should be started. The AMC/CMC charges will not be included in computing the total cost of the equipment.
- 27. Governing Language
 The contract shall be written in English language. English language version of the Contract shall govern
 its interpretation. All correspondence and other documents pertaining to the Contract, which are
 exchanged by the parties, shall be written in the same language.

 28. Applicable Law
 - The Contract shall be interpreted in accordance with the laws of the Union of India and all disputes shall be subject to place of jurisdiction.
 - Notices
 Any notice given by one party to the other pursuant to this contract/order shall be sent to the other party in writing or by cable, telex, FAX or e mail and confirmed in writing to the other party's address.
 - A notice shall be effective when delivered or on the notice's effective date, whichever is later.

Suppliers shall be entirely responsible for all taxes, duties, license fees, octroi, road permits, etc., incurred until delivery of the contracted Goods to the Purchaser. However, VAT in respect of the transaction between the Purchaser and the Supplier shall be payable extra, if so stipulated in the order.

Duties IIT Delhi is exempted from paying custom duty under notification No.51/96 (partially or full) and necessary "Custom Duty Exemption Certificate" can be issued after providing following information and Custom Duty Exemption Certificate will be issued to the shipment in the name of the Institute, (no certificate will be issued to third party): The procured product should be used for teaching, scientific and research work only.

- a) Shipping details i.e. Master Airway Bill No. and House Airway No. (if exists)
- b) Forwarder details i.e. Name, Contact No., etc.

IIT Delhi is exempted from paying Excise Duty and necessary Excise Duty Exemption Certificate will be provided for which following information are required.

- b) Quotation with details of Basic Price, Rate, Tax & Amount on which ED is applicable
- c) Supply Order Copy
- d) Proforma-Invoice Copy.

29.

30.

31.

Taxes

32.	Agency Commission: Agency commission if any will be paid to the Indian agent in Rupees on receipt of the equipment and after satisfactory installation. Agency Commission will not be paid in foreign currency under any circumstances. The details should be explicitly shown in Tender even in case of Nil commission. The tenderer should indicate the percentage of agency commission to be paid to the Indian agent.
33.	Payment:
	 (i) For imported items Payment will be made through irrevocable Letter of Credit (LC) Cash Against Documents (CAD)/Against delivery/after satisfactory installation by T.T. Letter of Credit (LC) will be established in favour of foreign Supplier after the submission of performance security. The letter of credit (LC) will be established on the exchange rates as applicable on the date of establishment. For Imports, LC will be opened for 100% FOB/CIF value. 80% of the LC amount shall be released on presentation of complete and clear shipping documents and 20% of the LC amount shall be released after the installation and demonstration of the equipment at the INST site of installation in faultless working condition for period of 60 days from the date of the satisfactory installation and subject to the production of unconditional performance bank guarantee as specified in Clause 8 of tender terms and conditions.
	 (ii) For Indigenous supplies, 100% payment shall be made by the Purchaser against delivery, inspection, successful installation, commissioning and acceptance of the equipment at IITD in good condition and to the entire satisfaction of the Purchaser and on production of unconditional
	performance bank guarantee as specified in Clause 9 of tender terms and conditions.
	(iii) Indian Agency commission (IAC), if any shall be paid after satisfactory installation &
	commissioning of the goods at the destination at the exchange rate prevailing on the date of
	negotiation of LC documents, subject to DGS&D registration for restricted items.(iv) All the bank charges within India will be borne by the Institute and outside India will be borne by the Supplier.
34.	User list: Brochure detailing technical specifications and performance, list of industrial and
54.	educational establishments where the items enquired have been supplied must be provided. (Ref. Annexure-III)
35.	Manuals and Drawings
	 (i) Before the goods and equipment are taken over by the Purchaser, the Supplier shall supply operation and maintenance manuals. These shall be in such details as will enable the Purchaser to operate, maintain, adjust and repair all parts of the works as stated in the specifications. (ii) The Manuals shall be in the ruling language (English) in such form and numbers as stated in the contract.
	(iii) Unless and otherwise agreed, the goods equipment shall not be considered to be completed for the purposes of taking over until such manuals and drawing have been supplied to the Purchaser.
36.	Application Specialist: The Tenderer should mention in the Techno-Commercial bid the availability and names of Application Specialist and Service Engineers in the nearest regional office. (Ref. to Annexure-III)
37.	 Site Preparation: The supplier shall inform to the Institute about the site preparation, if any, needed for the installation of equipment, immediately after the receipt of the purchase order. The supplier must provide complete details regarding space and all the other infrastructural requirements needed for the equipment, which the Institute should arrange before the arrival of the equipment to ensure its timely installation and smooth operation thereafter. The supplier shall visit the Institute and see the site where the equipment is to be installed and may offer his advice and render assistance to the Institute in the preparation of the site and other pre-
	installation requirements.
38.	Spare Parts The Supplier may be required to provide any or all of the following materials, notifications, and
	information pertaining to spare parts manufactured or distributed by the Supplier:

	 ii. Such spare parts as the Purchaser may elect to purchase from the Supplier, providing that this election shall not relieve the Supplier of any warranty obligations under the Contract; and iii In the event of termination of production of the energy parts.
	iii. In the event of termination of production of the spare parts:
	iv. Advance notification to the Purchaser of the pending termination, in sufficient time to permit the Purchaser to procure needed requirements; and
	v. Following such termination, furnishing at no cost to the Purchaser, the blueprints, drawings and
	specifications of the spare parts, if requested.
	Supplier shall carry sufficient inventories to assure ex-stock supply of consumable spares for the Goods,
	such as gaskets, plugs, washers, belts etc. Other spare parts and components shall be supplied as
	promptly as possible but in any case within six months of placement of order.
39.	Defective Equipment : If any of the equipment supplied by the Tenderer is found to be substandard,
	refurbished, un-merchantable or not in accordance with the description/specification or otherwise
	faulty, the committee will have the right to reject the equipment or its part. The prices of such
	equipment shall be refunded by the Tenderer with 18% interest if such payments for such equipment
	have already been made. All damaged or unapproved goods shall be returned at suppliers cost and risk
	and the incidental expenses incurred thereon shall be recovered from the supplier. Defective part in
	equipment, if found before installation and/or during warranty period, shall be replaced within 45 days
	on receipt of the intimation from this office at the cost and risk of supplier including all other charges.
	In case supplier fails to replace above item as per above terms & conditions, IIT Delhi may consider
40	"Banning" the supplier.
40.	Termination for Default
	The Purchaser may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Supplier, terminate the Contract in whole or part:
	i. If the Supplier fails to deliver any or all of the Goods within the period(s) specified in the order,
	or within any extension thereof granted by the Purchaser; or
	ii If the Supplier fails to perform any other obligation(s) under the Contract.
	iii If the Supplier, in the judgment of the Purchaser has engaged in corrupt or fraudulent practices
	in competing for or in executing the Contract.
	• For the purpose of this Clause:
	i. "Corrupt practice" means the offering, giving, receiving or soliciting of anything of value to
	influence the action of a public official in the procurement process or in contract
	execution.
	ii. "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement
	process or the execution of a contract to the detriment of the Borrower, and includes
	collusive practice among Bidders (prior to or after bid submission) designed to establish
	bid prices at artificial non-competitive levels and to deprive the Borrower of the benefits
	of free and open competition;"
	• In the event the Purchaser terminates the Contract in whole or in part, the Purchaser may procure,
	upon such terms and in such manner, as it deems appropriate, Goods or Services similar to those
	undelivered, and the Supplier shall be liable to the Purchaser for any excess costs for such similar
	Goods or Services. However, the Supplier shall continue the performance of the Contract to the
41	extent not terminated.
41.	Shifting : After 1-2 years once our new Academic Block will be ready, the supplier has to shift and
42	reinstall the instrument free of cost (if required).
42.	Downtime: During the warranty period not more than 5% downtime will be permissible. For every
	day exceeding permissible downtime, penalty of 1/365 of the 5% FOB value will be imposed.
43.	Downtime will be counted from the date and time of the filing of complaint with in the business hours. Training of Personnel: The supplier shall be required to undertake to provide the technical training
43.	to the personnel involved in the use of the equipment at the Institute premises, immediately after
	completing the installation of the equipment for a minimum period of one week at the supplier's cost.
1	Completing the installation of the equinment for a minimum period of one week at the supplier second

44.	Disputes and Jurisdiction : Any legal disputes arising out of any breach of contract pertaining to this		
	tender shall be settled in the court of competent jurisdiction located within New Delhi.		
45.	Compliancy certificate: This certificate must be provided indicating conformity to the technical		
	specifications. (Annexure-I)		

	Compliance Yes/No	
1.	Main Vacuum Chamber (Qty.:1)	
	a. Cylindrical style chamber, 304L SS, electro-	
	polished (box-style chamber not desired)	
	b. Hinged top lid for ease of access	
	c. (2) 6" CF viewports with integrated shutters,	
	capable of removing shutter	
	d. drive without breaking vacuum preventing	
	inexperienced users from operating shutter.	
	e. Spare 6" CF port in bottom center of chamber	
	positioned at normal incidence to substrate	
	f. Ports available for gauge heads (3)	
	g. Ports available for future RGA	
	h. Port for future thickness monitor	
	i. Chamber designed to incorporate load-lock	
	j. Port available for future connection to vacuum	
	chamber allowing in-situ transfer	
	k. Chamber must be designed to incorporate RHEED	
	as future upgrade. Vendor must guarantee RHEED	
	compatibility without the need for additional	
	magnetic shielding.	
	1. All unused ports must be blanked off	
	m. Transfer arm must be built into load-lock chamber	
	(does not occupy rack space or add to footprint)	
	n. System should be capable of accommodating up to (7) 2" con-focal	

	o. sputtering sources, and (1) 6" CF port to	
	accommodate (1) 2" direct deposition sputtering	
ſ	source, in-situ stress measurement device, an ion	
	source, or an evaporation source	
2.	Load-lock chamber with transfer arm (Qty.: 1)	
	a. The load-lock chamber should be fitted with vent-	
	valve, and suitable ports for mounting rough	
	vacuum and HV pressure sensors, etc.	
	b. VAT or equivalent make Gate valve (Qty.:1) of	
	flange size appropriate to connect the main	
	deposition chamber and the load lock chamber via	
	the transfer arm	
	c. Low volume aluminum chamber body machined	
	from single billet.	
	d. easy access, removable loading door	
	e. Magnetic transfer system with custom susceptor for	
	transferable substrate carrier.	
	f. Full range vacuum gauge	
3.	Instrument Rack (Qty.: 1):	
	a. Welded stainless steel frame with open frame	
	work design	
	b. Chamber must not be enclosed with panels	
	c. Durable powder coated table top	
	d. Utilities must be located on backside of	
	instrument rack mounted in removable boxes for	
	ease of access (please show picture of design)	
	e. Instrument rack must have space available to accommodate additional	
	f. future power supplies (not including those listed in the description)	
	g. Instrument rack must not exceed 100"L x 30"W	
	h. Must have table top space available for work	
	space at standing height,	

	i. standalone chamber with separate instrument rack			
	not desirable.			
4.				
4.	Vacuum Pumps Pumping for Main chamber			
	Pumping for Main chamber a. Pfeiffer/Edwards or equivalent make			
	a. Pfeiffer/Edwards or equivalent make turbopump with pumping speed \geq 700 l/s (for			
	Nitrogen gas) and delayed vent valve (Qty .:			
	1):			
	b. N ₂ purge to allow oxygen processing			
	c. <i>Pfeiffer</i> or <i>Leybold</i> or Alcatel or equivalent make			
	>8.2 cfm dry backing pump with integral anti-			
	suckback valve(Qty.: 1):			
	<i>d.</i> Interconnecting plumbing and hardware.			
	Pumping for Load-lock chamber			
	e. Pfeiffer or Leybold or equivalent make turbo-			
	molecular pump with delayed vent and TMP			
	controller and pumping speed ≥ 80 lps for load lock			
	chamber. (Qty.: 1):			
	f. <i>Pfeiffer</i> or <i>Leybold</i> or <i>equivalent</i> make Dry pump			
	with appropriate technical specifications so as to			
	be compatible with backing the turbo pump of the			
	load-lock chamber (Qty.: 1).			
5.	Sputtering Guns (Qty.: 4):			
	a. System must include \geq 4 UHV compatible 2"			
	con-focal magnetron sputtering guns with			
	chimney, pneumatic shutter, and gas injection			
	capability.			
	b. 2" sputtering gun must be able to accommodate			
	up to 0.125" thick magnetic targets including			
	pure iron.			
	c. All guns must have modular magnet design to			
	allow balanced, unbalanced, and magnetic			
	material configurations. Dedicated gun for			
	magnetic material sputtering is not accepted,			
	must have versatility.			
	d. Magnets must be located in vacuum, outside of			
	cooling water, with Curie point of 200° C.			

	e. Source chimneys must be designed to	
	accommodate internal shielding that allows	
	adjustment or manipulation of deposition profile.	
6.	Power Supplies: (Qty.:2)	
	a. 750W DC power supply (1000V, 1A), with	
	integrated 4-way switchbox with all relevant	
	cable. (Qty.: 1)	
	b. 300W RF power supplies with automatic	
	matching network, includes 4-way switchbox	
	with all relevant cable set. (Qty. 1)	
7.	Vacuum Gauges (Qty.: 3):	
	a. Gauge Package that includes (Qty.: 1) Convectron	
	gauge, (Qty.: 1) 0.1 Torr Baratron gauge, and	
	(Qty.: 1) nude ion gauge.	
	b. Vacuum gauge controller must have ability to	
	display up to 5 gauge heads.	
9.	Substrate Holder (Qty. 1):	
	a. Should accommodate up to 4" diameter substrate.	
	b. Substrate rotation of \geq 40 RPM.	
	c. \geq 850 °C heating via quartz lamps Capable of heating	
	in O ₂ environment.	
	d. 2" Z-motion for target-to-substrate height	
	adjustability.	
	e. RF/DC biasing capabilities while rotating / heating /	
	depositing.	
	f. Must have substrate gas ring to allow for reactive	
	sputtering.	
	g. Must use Ferro fluidic rotary feedthrough.	
	h. Must have Dual PID heater control that	
	automatically switches between high/low temp	
	range without manual tuning	
	i. Overtemp protection +/- 1 degree °C temp stability	
	j. Compatible with UHV	

	a. MFC gas lines for Ar and Reactive gas with	
	Pneumatic isolation valves (Qty. 2).	
	b. Ar plumbed to (1) sputtering source	
	c. Reactive gas introduction at substrate surface via	
	substrate gas ring.	
	d. Capable of expanding and adding 2 additional MFC	
	(total 4). Must include mounting space and	
	software/hardware capacity.	
11.	Pressure Control:	
	a. VAT/Equivalent automatic pressure control for isolation and throttling (8"CF size) (Qty. 1).	
	b. Automatic vent delayed valve on turbo-molecular	
	pump	
	c. Manual vent valve	
	d. System must be designed for downstream pressure control	
12.	Power Distribution system:	
	a. System must take 1-phase, 220 VAC input voltage.	
	b. Includes water and vacuum interlocks	
	c. Includes (2) breakers for vacuum pump control,	
	allows single breaker to turn turbo and mechanical	
	pump on/off. Ease of operation for pump safety.	
13.	Computer Control:	
	a. Interfaces with (5) DC & (4) RF generators for	
	control of output mode, setpoint, ramping &	
	plasma detection	
	b. Interfaces directly with solenoid pneumatics	
	manifold, for control of shutters, gas isolation	
	valves & spares	
	c. Interfaces with VAT valve for: open / closed /	
	throttle position	
	d. Interfaces with Substrate Holder closed-loop	
	PID heater controller for:	
	-	

Г		
	f. Interfaces with substrate rotation controller (On/Off Mode)	
	g. Define and stack process layers to create processes	
	h. Monitoring and data logging kW hrs. in software:	
	i. Stores and runs processes	
	j. 100+ separate password protected accounts for	
	process layer & process security	
	k. Auto shutdown of power supplies if: plasma not	
	detected	
	1. Auto abort of process if: plasma not detected /	
	gas flow setpoint or	
	m. temperature setpoint not reached	
	n. Displays and data logs: shutter position / DC	
	power feedback / Pulse Frequency and Reverse	
	Time / DC bias feedback (for RF) / plasma	
	verification / process pressure / gas flow	
	feedback / T/C temperature feedback / target kW	
	hours / Abort Notifications	
	o. A laptop computer should be provided for full	
	computer control	
	p. Must include Excel Software Emulator, which allows remote recipe creation from outside lab	
14.	Guarantees:	
14.	a. Con-Focal Deposition Uniformity: +/- 2.5% over 4" diameter wafer with 5mm edge exclusion.	
	b. Vendor must have in-house ellipsometry monitor to	
	prove deposition uniformity at time of acceptance	
	testing	
	c. Base Vacuum: Better than or equal to 5.0 x 10-8 Torr	
15.	Build Time:	
	a. Must be ready for shipment within 12 weeks of	
	order receipt	
16.	Mandatory Accessories	

	a. Water Chiller: Closed-loop chiller with +/-			
	0.1 C temperature stability control			
	b. Transverse magnetic field substrate carrier			
	with minimum 200 Oe and less than 2 degree			
	skew			
	c. Uninterrupted power supply: Suitable UPS			
	(on line) of appropriate power (KVA) to			
	provide sufficient power to run the: including			
	the sputter system and chiller including pump			
	and cooling circuit compressor. Minimum 30			
	min Needed. The UPS to be supplied with			
	stand for batteries.			
17.	Other Mandatory requirements			
	a. A List of recent installations of the offered model in India should be provided.			
	b. A list of service engineers available in India need to be provided.			
	c. After sale service may be used as a component for technical evaluation of the equipment.			

I have also enclosed all relevant documents in support of my claims, (as above) in the following pages.

<< Organization Letter Head >> DECLARATION SHEET

We, _______ hereby certify that all the information and data furnished by our organization with regard to this tender specification are true and complete to the best of our knowledge. I have gone through the specification, conditions and stipulations in details and agree to comply with the requirements and intent of specification.

This is certified that our organization has been authorized (Copy attached) by the OEM to participate in Tender. We further certified that our organization meets all the conditions of eligibility criteria laid down in this tender document. Moreover, OEM has agreed to support on regular basis with technology / product updates and extend support for the warranty.

The prices quoted in the financial bids are subsidized due to academic discount given to IIT Delhi.

We, further specifically certify that our	NAME & ADDRESS OF
