</table>
| Mandatory Minimum Local Content | 1) 50% for Class I Supplier  
2) 20% for Class II Supplier |
| Margin of Purchase Preference for Local Content | 20% (Pl. refer to the DPIIT Order mentioned at T&C No.45) |

Tender Documents may be downloaded from Central Public Procurement Portal [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app). Aspiring Bidders who have not enrolled / registered in e-procurement should enroll / register before participating through the website [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app). The portal enrolment is free of cost. Bidders are advised to go through instructions provided at ‘Instructions for online Bid Submission’.

Tenderers can access tender documents on the website (For searching in the NIC site, kindly go to Tender Search option and type ‘IIT’). Thereafter, Click on “GO” button to view all IIT Delhi tenders). Select the appropriate tender and fill them with all relevant information and submit the completed tender document online on the website [http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app) as per the schedule given in the next page.

No manual bids will be accepted. All quotation (both Technical and Financial should be submitted in the E-procurement portal).
| **SCHEDULE** |
|-----------------|---------------------------------|
| **Name of Organization** | Indian Institute of Technology Delhi |
| **Tender Type** (Open/Limited/EOI/Auction/Single/Global) | Open Tender |
| **Tender Category (Services/Goods/works)** | Goods |
| **Type/Form of Contract (Work/Supply/ Auction/ Service/ Buy/ Empanelment/ Sell)** | Buy |

**Instructions for Online Bid Submission**/ ऑनलाइन बोली (बिड) के लिए निर्देश:

As per the directives of Department of Expenditure, this tender document has been published on the Central Public Procurement Portal (URL: http://eprocure.gov.in/eprocure/app). The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at:

अधिक जानकारी सीपीपी पोर्टल पर ऑनलाइन बोलियां जमा करने के लिए उपयोगी हो सकती हैः

http://eprocure.gov.in/eprocure/app

**REGISTRATION**

1) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: http://eprocure.gov.in/eprocure/app) by clicking on the link “Click here to Enroll”. Enrolment on the CPP Portal is free of charge.

बोलीदाताओं को "नामांकन के लिए यहां क्लिक करें" लिंक पर क्लिक करके सेंट्रल पब्लिक प्रोक्युरमेंट पोर्टल (यूआरएल: http://eprocure.gov.in/eprocure/app) के ई-प्रोक्युरमेंट मॉड्यूल पर भारी करना आवश्यक है। सीपीपी पोर्टल पर नामांकन निश्चय है।

2) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.

नामांकन प्रक्रिया के भाग के रूप में, बोलीदाताओं को अपने खाते के लिए एक अद्वितीय उपयोगकर्ता नाम चुनना होगा और एक पासवर्ड प्रदान करना होगा।

3) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.

बोलीदाताओं को सलाह दी जाती है कि पंजीकरण प्रक्रिया के भाग के रूप में अपना वैध ईमेल पता और मोबाइल नंबर पंजीकृत करें। 

4) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.

नामांकन पर, बोलीदाताओं को सीतीएसएसएस इंडिया द्वारा मान्यता प्राप्त किसी प्रमाणपत्र प्राप्तिकरण द्वारा जारी किए गए अपने मान्य डिजिटल हस्ताक्षर प्रमाण पत्र (कक्षा II या कक्षा III प्रमाण पत्र के साथ महत्वपूर्ण उपयोग पर हस्ताक्षर करने) की आवश्यकता होगी (जैसे सीफी / टीजीएसएस / एनकोड / ई-मुद्रा आदि), उनके प्रोफाइल के साथ।

5) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSCs to others which may lead to misuse.

केवल एक मान्य डीएसएसएसएस को एक बोलीदाता द्वारा पंजीकृत होना चाहिए। कृपया ध्यान दें कि निविदावर्ग यह सुनिश्चित करने के लिए जिम्मेदार है कि वे अपने डीएसएसएसएस को दूसरों को उधार नहीं देते हैं जिससे दुरुपयोग हो सकता है।
6) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / eToken.

बोलीदाता फिर अपने यूजर आईडी / पासवर्ड और डीएससी / ईटीकेन के पासवर्ड को दर्ज करके सुरक्षित लॉ-इन के माध्यम से साइट पर लॉग ऑन करता है।

SEARCHING FOR TENDER DOCUMENTS/ निविदा दस्तावेजों के लिए खोजना

1) There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, organization name, location, date, value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as organization name, form of contract, location, date, other keywords etc. to search for a tender published on the CPP Portal.

2) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective ‘My Tenders’ folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

3) The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS / बोली (विड) की तैयारी

1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.

2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF formats. Bid documents may be scanned with 100 dpi with black and white option.
4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use “My Space” area available to them to upload such documents. These documents may be directly submitted from the “My Space” area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS/ बोली (बिड) का जमा करना

1) Bidder should log into the site well in advance for bid submission so that he/she upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.

2) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.

3) Bidder has to select the payment option as “on-line” to pay the tender fee as applicable and enter details of the instrument. Whenever, Tender fees is sought, bidders need to pay the tender fee separately on-line through RTGS (Refer to Schedule, Page No.2).

4) A standard BoQ format has been provided with the tender document to be filled by all the bidders. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. Bidders are required to download the BoQ file, open it and complete the white colored (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

5) The server time (which is displayed on the bidders’ dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
ASSISTANCE TO BIDDERS / बोलीदाताओं को सहायता

1) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

2) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk. The contact number for the helpdesk is 1800 233 7315.

General Instructions to the Bidders / बोलीदाताओं के लिए सामान्य निदेश

1) The tenders will be received online through portal http://eprocure.gov.in/eprocure/app. In the Technical Bids, the bidders are required to upload all the documents in .pdf format.

2) Possession of a Valid Class II/III Digital Signature Certificate (DSC) in the form of smart card/e-token in the company's name is a prerequisite for registration and participating in the bid submission activities through https://eprocure.gov.in/eprocure/app. Digital Signature Certificates can be obtained from the
authorized certifying agencies, details of which are available in the web site https://eprocure.gov.in/eprocure/app under the link “Information about DSC”.

3) Tenderer are advised to follow the instructions provided in the ‘Instructions to the Tenderer’ for the e-submission of the bids online through the Central Public Procurement Portal for e Procurement at https://eprocure.gov.in/eprocure/app.
NOTICE INVITING QUOTATIONS

Subject: Purchase of Mechanical Characterization System for Composites

Invitation for Tender Offers

Indian Institute of Technology Delhi invites online Bids (Technical bid and Commercial bid) from eligible and experienced OEM (Original Equipment Manufacturer) OR OEM Authorized Dealer for supply, installation & integration of Mechanical Characterization System for Composites with (warranty period as stated at page #1 of this tender) on site comprehensive warranty from the date of receipt of the material as per terms & conditions specified in the tender document, which is available on CPP Portal http://eprocure.gov.in/eprocure/app

TECHNICAL SPECIFICATION:

<table>
<thead>
<tr>
<th>S. No.</th>
<th>Description</th>
<th>300 kN (or above) Mechanical Characterization System for Composites</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>SCOPE OF WORK AND GENERAL REQUIREMENTS:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The system shall be capable of testing variety of tests in tension, compression/ bend modes on composite and other materials as per relevant ASTM/ ISO standards. The machine shall be supplied with necessary accessories (grips &amp; fixtures, environmental chamber, extensometers etc. - details below) and controlled software (with perpetual license at no additional cost) to run different tests on composite material. The main components of the machine - load frame, controller cum data acquisition system, software for machine control, data acquisition and analysis and accessories to test composite material as per relevant ASTM/ ISO standards. The vendor shall supply the machine with all the required accessories and software.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>All fixtures and accessories supplied should be compatible with the machine. On commissioning, the supplier shall demonstrate the performance of the machine as per specifications. CE compliance is necessary.</td>
<td></td>
</tr>
</tbody>
</table>
## General Qualification

1) Only those shall quote, who or their principal have supplied and commissioned at least 2-3 number of similar capacity UTM (including accessories like grips, extensometer etc.) machines to recognized institutions in the past 5 years. Details to be provided as and when asked.

2) Supporting documents like product information, catalogues etc. shall be furnished along with technical bid as requested.

3) They may also be asked to arrange a live demonstration of machine/accessories during technical evaluation before commercial bid opening.

4) No customized solution will be qualified and it must be a standard product.

5) Supplier should have direct presence, operations and services in India and registered office in the name of original manufacturer. The country of manufacture of machine and accessories must be clearly indicated by the supplier.

6) Vendor must have well-functioning service center in India with a proven service record. Details to be submitted.

Technical specifications for load frame, controller, accessories, application software are given below:

| (A) Load Frame | • Floor standing design  
|               |   - The machine should come with an alignment adapter  
|               |   - A servomotor shall be used for drive system for low maintenance and high torque.  
|               |   - Non-clutched AC drives rated for full speed at maximum force  
|               |   - The system shall have a cross head guidance system to compensate for wobble, forces, and moments.  
|               |   - The ball screws and guidance system should be protected from dust and dirt.  
|               |   - The system shall ensure increased crosshead position accuracy, repeatability and zero backlash.  
|               |   - To improve axial stiffness (420 kN/mm or better) and concentric load train alignment, load cells shall be flush mounted to the crosshead with a single stud.  
|               |   - Column protection over total traverse stroke.  
|               |   - Power indication and emergency stop switches should be given with the machine.  
|               | Technical Specifications of load frame:  
|               |   - **Frame Max Load capacity**: 300kN (or higher) Electromechanical, screw driven, twin-column, floor standing model.  
|               |   - **Load cell**: +/- 300kN (or higher) (Tension/Compression) with force range 1% to 100% capacity and with accuracy +/- 0.6% (or better) of reading.  
|               |   - **Rated maximum force** at maximum test speed: 100%  
|               |   - **Rated maximum test speed** at maximum force: 100%  
|               |   - **Crosshead travel**: 1400 mm (or better)  
|               |   - **Crosshead speed of traverse**: variable between 0.005 to 400 mm/min or better  
|               |   - **Cross head speed accuracy**: within +/- 1% (or less) for the entire speed range  
|               |   - **Position resolution** of should be 0.050 micrometer or better  
|               |   - **Servo controlled digital closed-loop controls** to test in load, position and strain control.  
|               |   - **Return speed**: 500mm/min or better.  
|               |   - **Vertical test space**: 1800 mm or more, minimum horizontal test space: 650mm or more suitable for mounting components (future plan)  
|               |   - **Dimensions (height x width x depth)**, not to exceed individually: (3.0m x 1.5m x 1.5m)  

<table>
<thead>
<tr>
<th>(B)</th>
<th>Crosshead measurement system</th>
<th>The test system shall utilize the motor’s encoder to acquire crosshead position data. This positioning sensor can measure either relative changes in position or absolute position</th>
</tr>
</thead>
</table>
| (C) | Load Measurement system | - A set of two load cells should be provided with UTM (300kN (or higher) and 10 kN – suitable adapters to be provided for lower load cell to be used with the machine)  
  - Load cells shall include self-identification as follows: 
    i. Calibration data shall be integral to the transducer. 
    ii. Calibration history shall be integral and part of the transducer. 
    iii. Automatic shunt calibration shall be integral to the transducer. 
    iv. Re-calibration of the load cell shall require no manual adjustments or transducer disassembly.  
  - Cabling for load cells shall be shielded for noise resistance and run internally from the controller to the load cell.  
  - Cables shall be connected at the crosshead to reduce noise, cable length, and problems with entanglement during testing.  
  - Load cells shall be capable of full load in both tension and compression.  
  - Lower capacity load cells shall be mechanically protected against 140% overload (or better).  
  - The excitation to all devices is removed when the test software is exited.  
  - The 10kN load cell should be mountable on the hydraulic grips |
| (D) | Strain Measurement System | - Strain measurement system shall conform to, meet, or exceed ASTM E-83, 853846, ISO 8513, and EN 10002-4.  
  - The strain measurement system shall be capable of conditioning and accepting inputs from DC devices (e.g., strain gage based), and digital devices (e.g., encoders). |
| (E) | Control System & Software | - The control system shall provide closed loop control of the testing system at 500 Hz or more.  
  - The controller shall be capable of closed loop control on any input related to displacement. Control software must support position commands and outer loop control on load and strain.  
  - **Handset**  
    o A handset (to be provided) shall be located at the machine and provide the following features:  
      - Start test, Stop Test, Pause  
      - Crosshead Return  
      - Programmable jog functions  
      - Fine positioning control such as a thumbwheel  
  - **Software**  
    - The software should have a perpetual license at no additional cost  
    - The test system PC shall be compatible with Microsoft Windows (latest version) with software for controlling and defining the test and for data acquisition  
    - Test software shall provide standard templates for running monotonic tests (tensile, compression, bend)  
    - Test Software shall have graphical drag-and-drop test layout design. Must be possible to create test templates.  
    - Should have complete package of all tests (i.e. Tensile tests, Compression tests, Cycling tests, relaxation tests, as per all the international standards ISO,ASTM etc.) for metals, plastic, wood, composites. |

**Test Definition and Execution Application**

| **Machine** should be operable on three phase and power requirement compatible on Indian standards |

---

10
- Application software shall allow the operator to graphically build and run monotonic and cyclic tests. Features and functions include:
  - Test template creation
  - Data acquisition (timed, P/V, level crossing, cyclic/logarithmic)
  - Function Generation-Sine, square, triangle, ramp, hold processes
  - Parallel branches for test execution and logical operators (if/then, while)
  - Limit sensing, sequencing triggers, and interface to digital I/O
  - Real-time validation of all input parameters during test design
- User should be able to modify test and machine parameters.
- **Report Generation Application**
  - Shall provide ability to output data in Excel.
- **Data acquisition**
  - The system shall be capable of simultaneously acquiring data through following onboard channels: load cell, time, crosshead position, two analog strain inputs and one digital optical encoder input.
  - The testing system electronics shall incorporate digital data acquisition at a rate of at least 500 Hz throughput to the data storage device on each data channel.
  - Data shall be sampled simultaneously on all onboard channels to eliminate time skew.
  - The system shall be capable of acquiring data from additional digital and analog channels
- **Real-time display**
  - A programmable digital display shall be provided capable of displaying at a minimum:
    - All physical data channels
    - All calculated data channels

<table>
<thead>
<tr>
<th>Thermal Chamber</th>
<th>Thermal Chamber with Liquid Nitrogen handling capability: shall be capable of testing composite and other materials at desired temperatures and should have following features-</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

| Mixed Mode Bend Fixture as per ASTM D6671 with above provided compression platens | Suitable for testing in accordance to ASTM D6671. |
- Maximum capacity: 1 kN (or higher)
- Usable with the 10kN load cell
- Temperature range: -50 to 120°C
- Should be mountable on the machine without removal of hydraulic grips and work inside the thermal chamber

- **Open / Closed Hole Compression Fixture as per ASTM D6484, ASTM D6742 with attachment Compression fixture to high temperature load frame**
  Suitable for open / closed hole compression testing in accordance with ASTM D6484 and D6742
  - Maximum Capacity: 200 kN (or higher)
  - Temperature Range: -50 to 175°C
  - Attachment compression fixture to high temperature load frame
  - Should be mountable on the machine without removal of hydraulic grips and work inside the thermal chamber

- **Flatwise Plane Shear Fixture; Tensile Mode as per ASTM C273**
  Suitable for flatwise plane shear testing of the tensile mode in accordance with ASTM C273
  - Temperature Range: -50 to 175°C
  - Maximum Capacity: 80 kN (or higher)
  - Should be mountable on the machine without removal of hydraulic grips and work inside the thermal chamber

- **Peel test setup**
  - Low Force (compatible with 10 kN load cell) test fixture for peel adhesion strength testing.
  - Should be mountable on the machine without removal of hydraulic grips for 10kN load cell

---

(K) Extensometers

1. **Biaxial Extensometer**
   To measure Poisson’s ratio
   - Gage length: 25 mm
   - Travel axial: +1.25 and -0.50 mm
   - Travel transverse: +/- 0.50 mm
   - Temperature range: -50 to 150°C
   - Strain range: +5% / -2%
   - Should be mountable on the machine without removal of hydraulic grips
   - Desirable, but not necessary, to work inside the thermal chamber

2. **Video Extensometer**
   - Video extensometer is required for non-contact strain measurement
   - DIC and post-processing software (perpetual license at no extra cost)

3. **Automatic Extensometer**
   - Strain measurement up to specimen break point
   - Automatic self-adjusting gage length positioning to ensure test consistency
   - Automatic clamping and unclamping on sample
   - 300 mm (or more) arm length
   - Gauge length: 15-100 mm (or better)
   - Deformation Measurement Range: 0 - 80 mm
   - Resolution: 0.2 μm (or better)
   - Thickness/Diameter: upto 40 mm
   - Desirably, but not necessarily, should be able to measure Poisson’s ratio at room temperature
4. Axial Extensometer (clip-on type)

- The extensometer is ideally suited for tensile testing of plastics
- Desirable, but not necessary, to be able to measure through failure without damaging
- Low activation force
- The standard model includes knife edges and quick attachment fixtures for both flat and round specimens.
- Gage length: 50.00 mm
- Travel: 25 mm
- Desirable, but not necessary, to work inside the thermal chamber
- Strain Range: +50% / -10%

A complete set of tender documents* may be Download by prospective bidder free of cost from the website http://eprocure.gov.in/eprocure/app. Bidder has to make payment of requisite fees (i.e. Tender fees, if any online through RTGS/NEFT only.
### Terms & Conditions Details

<table>
<thead>
<tr>
<th>Sl. No.</th>
<th>Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td><strong>Due date</strong>: The tender has to be submitted on-line before the due date. The offers received after the due date and time will not be considered. No manual bids will be considered.</td>
</tr>
<tr>
<td>2.</td>
<td><strong>Preparation of Bids</strong>: The offer/bid should be submitted in two bid systems i.e. Technical bid and Financial bid. The Technical bid should consist of all technical details along with commercial terms and conditions. Financial bid should indicate item wise price for the items mentioned in the technical bid in the given format i.e BoQ_XXXX. The Technical bid and the financial bid should be submitted Online. <em>Note</em>: -Comparison of prices will be done ONLY on the bids submitted for the Main Equipment and anything asked as ‘Optional’ in the specs is not to be included for overall comparison.</td>
</tr>
<tr>
<td>3.</td>
<td><strong>EMD (if applicable)</strong>: The tenderer should submit an EMD amount through RTGS/NEFT. The Technical Bid without EMD would be considered as UNRESPONSIVE and will not be accepted. The EMD will be refunded without any interest to the unsuccessful bidders after the award of contract. Refer to Schedule (at page 1 of this document) for its actual place of submission.</td>
</tr>
<tr>
<td>4.</td>
<td><strong>Refund of EMD</strong>: The EMD will be returned to unsuccessful Tenderer only after the Tenders are finalized. In case of successful Tenderer, it will be retained till the successful and complete installation of the equipment.</td>
</tr>
<tr>
<td>5.</td>
<td><strong>Opening of the tender</strong>: The online bid will be opened by a committee duly constituted for this purpose. Online bids (complete in all respect) received along with EMD (if any) will be opened as mentioned at “Annexure: Schedule” in presence of bidders representative if available. Only one representative will be allowed to participate in the tender opening. Bid received without EMD (if present) will be rejected straight way. The technical bid will be opened online first and it will be examined by a technical committee (as per specification and requirement). The financial offer/bid will be opened only for the offer/bid which technically meets all requirements as per the specification, and will be opened in the presence of the vendor’s representatives subsequently for further evaluation. The bidders if interested may participate on the tender opening Date and Time. The bidder should produce authorization letter from their company to participate in the tender opening.</td>
</tr>
<tr>
<td>6.</td>
<td><strong>Acceptance/ Rejection of bids</strong>: The Committee reserves the right to reject any or all offers without assigning any reason.</td>
</tr>
</tbody>
</table>
| 7. | **Pre-qualification criteria**:  
(i) Bidders should be the manufacturer / authorized dealer. Letter of Authorization from original equipment manufacturer (OEM) on the same and specific to the tender should be enclosed.  
(ii) An undertaking from the OEM is required stating that they would facilitate the bidder on a regular basis with technology/product updates and extend support for the warranty as well. (Ref. Annexure-II)  
(iii) OEM should be internationally reputed Branded Company.  
(iv) Non-compliance of tender terms, non-submission of required documents, lack of clarity of the specifications, contradiction between bidder specification and supporting documents etc. may lead to rejection of the bid.  
(v) In the tender, either the Indian agent on behalf of the Principal/OEM or Principal/OEM itself can bid but both cannot bid simultaneously for the same item/product in the same tender.  
(vi) If an agent submits bid on behalf of the Principal/OEM, the same agent shall not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product. |
| 8. | **Performance Security**: The supplier shall require to submit the performance security in the form of irrevocable bank guarantee issued by any Indian Nationalized Bank for an amount which is stated at page #1 of the tender document within 21 days from the date of receipt of the purchase |
order and should be kept valid for a period of 60 days beyond the date of completion of warranty period.

9. **Force Majeure:** The Supplier shall not be liable for forfeiture of its performance security, liquidated damages or termination for default, if and to the extent that, it’s delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.
   - For purposes of this Clause, "Force Majeure" means an event beyond the control of the Supplier and not involving the Supplier's fault or negligence and not foreseeable. Such events may include, but are not limited to, acts of the Purchaser either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
   - If a Force Majeure situation arises, the Supplier shall promptly notify the Purchaser in writing of such conditions and the cause thereof. Unless otherwise directed by the Purchaser in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

10. **Risk Purchase Clause:** In event of failure of supply of the item/equipment within the stipulated delivery schedule, the purchaser has all the right to purchase the item/equipment from the other source on the total risk of the supplier under risk purchase clause.

11. **Packing Instructions:** Each package will be marked on three sides with proper paint/indelible ink, the following:
   i. Item Nomenclature
   ii. Order/Contract No.
   iii. Supplier’s Name and Address
   iv. Consignee details
   v. Packing list reference number

12. **Delivery and Documents:**
    Delivery of the goods should be made within a maximum of 12 to 16 weeks *(for goods ready for shipment)* & Maximum *(To be filled by Purchaser)* weeks *(for special/ to be fabricated goods)* from the date of the Purchase Order. Within 24 hours of shipment, the supplier shall notify the purchaser and the insurance company by email the full details of the shipment including contract number, railway receipt number/ AAP etc. and date, description of goods, quantity, name of the consignee, invoice etc. The supplier shall mail the following documents to the purchaser with a copy to the insurance company:
    1. 4 Copies of the Supplier invoice showing contract number, goods' description, quantity
    2. unit price, total amount;
    3. Insurance Certificate if applicable;
    4. Manufacturer's/Supplier's warranty certificate;
    5. Inspection Certificate issued by the nominated inspection agency, if any
    6. Supplier’s factory inspection report; and
    7. Certificate of Origin (if possible by the beneficiary);
    8. Two copies of the packing list identifying the contents of each package.
    9. The above documents should be received by the Purchaser before arrival of the Goods (except where the Goods have been delivered directly to the Consignee with all documents) and, if not received, the Supplier will be responsible for any consequent expenses.

13. **Delayed delivery:** If the delivery is not made within the due date for any reason, the Committee will have the right to impose penalty 1% per week and the maximum deduction is 10% of the contract value / price.

14. **Prices:** The price should be quoted in net per unit (after breakup) and must include all packing and delivery charges.
Price quoted should be in Indian Rupees, free delivery at IIT Delhi Campus at site (DDP/FOR).

Further, depending on the nature of the goods, there may be cost elements towards installation and commissioning, operator’s training, and so on. Normally, it may be included in the equipment cost but if it is quoted separately, the same will be added in the item price for the determination of ranking of the bidders.

The offer/bid should be exclusive of taxes and duties, which will be paid by the purchaser as applicable. However, the percentage of taxes & duties shall be clearly indicated.

Necessary certificate will be issued on demand.
The Buyer/PFC will have the right to award contracts to different Bidders for being lowest in particular items.

For ranking of offers, price of complete scope of supply as detailed in technical specifications, the procuring authority/Purchaser may decide as follows for comparison of price bid -

(i) All items of the bid which are mandatorily required to meet the tendered specifications of the item/system
(ii) If a bidder has put certain items/modules which are required to meet the tendered specifications in the ‘optional’ part of the bid, then such optional items shall also be included for the purpose of price comparison
(iii) On the other hand, if a bidder has inadvertently included any item/module in its main price bid which is not required as per tender specifications, then the price of such item/module shall be excluded from the price comparison provided that the price for the said item/module is clearly reflected separately in the bid
(iv) Anything asked as ‘optional’ in our specs is not to be included for overall comparison

Non-conformities between Figures and words:
Sometimes, non-conformities/errors are also observed in responsive tenders between the quoted prices in figures and in words. This situation normally does not arise in case of e-Procurement. This should be taken care of in the manner indicated below:

(i) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected.
(ii) If there is an error in a total corresponding to the addition or subtraction of sub-totals, the sub-totals shall prevail and the total shall be corrected;
(iii) If there is a discrepancy between words and figures, the amount in words will prevail for calculation of price.

15. Notices: For the purpose of all notices, the following shall be the address of the Purchaser and Supplier.

Purchaser: Prof. BP Patel,
Applied Mechanics Department
Indian Institute of Technology Delhi
Hauz Khas, New Delhi - 110016.
Supplier: (To be filled in by the supplier)  
(Supplier should submit its supplies information as per Annexure-II).

16. **Progress of Supply:** Wherever applicable, supplier shall regularly intimate progress of supply, in writing, to the Purchaser as under:
   1. Quantity offered for inspection and date;
   2. Quantity accepted/rejected by inspecting agency and date;
   3. Quantity dispatched/delivered to consignees and date;
   4. Quantity where incidental services have been satisfactorily completed with date;
   5. Quantity where rectification/repair/replacement effected/completed on receipt of any communication from consignee/Purchaser with date;
   6. Date of completion of entire Contract including incidental services, if any; and
   7. Date of receipt of entire payments under the Contract (In case of stage-wise inspection, details required may also be specified).

17. **Inspection and Tests:** Inspection and tests prior to shipment of Goods and at final acceptance are as follows:
   - After the goods are manufactured and assembled, inspection and testing of the goods shall be carried out at the supplier’s plant by the supplier, prior to shipment to check whether the goods are in conformity with the technical specifications attached to the purchase order. Manufacturer’s test certificate with data sheet shall be issued to this effect and submitted along with the delivery documents. The purchaser shall be present at the supplier’s premises during such inspection and testing if need is felt. The location where the inspection is required to be conducted should be clearly indicated. The supplier shall inform the purchaser about the site preparation, if any, needed for installation of the goods at the purchaser’s site at the time of submission of order acceptance.
   - The acceptance test will be conducted by the Purchaser, their consultant or other such person nominated by the Purchaser at its option after the equipment is installed at purchaser’s site in the presence of supplier’s representatives. The acceptance will involve trouble free operation and ascertaining conformity with the ordered specifications and quality. There shall not be any additional charges for carrying out acceptance test. No malfunction, partial or complete failure of any part of the equipment is expected to occur. The Supplier shall maintain necessary log in respect of the result of the test to establish to the entire satisfaction of the Purchaser, the successful completion of the test specified.
   - In the event of the ordered item failing to pass the acceptance test, a period not exceeding one week will be given to rectify the defects and clear the acceptance test, failing which the Purchaser reserve the right to get the equipment replaced by the Supplier at no extra cost to the Purchaser.
   - Successful conduct and conclusion of the acceptance test for the installed goods and equipment shall also be the responsibility and at the cost of the Supplier.

18. **Resolution of Disputes:** The dispute resolution mechanism to be applied pursuant shall be as follows:
   - In case of Dispute or difference arising between the Purchaser and a domestic supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules there under and any statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to the Director, Indian Institute of Technology Delhi and if he is unable or unwilling to act, to the sole arbitration of some other person appointed by
him willing to act as such Arbitrator. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.

19. **Applicable Law:** The place of jurisdiction would be New Delhi (Delhi) INDIA.

20. **Right to Use Defective Goods:**
If after delivery, acceptance and installation and within the guarantee and warranty period, the operation or use of the goods proves to be unsatisfactory, the Purchaser shall have the right to continue to operate or use such goods until rectifications of defects, errors or omissions by repair or by partial or complete replacement is made without interfering with the Purchaser’s operation.

21. **Supplier Integrity:**
The Supplier is responsible for and obliged to conduct all contracted activities in accordance with the Contract using state of the art methods and economic principles and exercising all means available to achieve the performance specified in the contract.

22. **Training:**
The Supplier is required to provide training to the designated Purchaser’s technical and end user personnel to enable them to effectively operate the total equipment.

23. **Installation & Demonstration:**
The supplier is required to do the installation and demonstration of the equipment within one month of the arrival of materials at the IITD site of installation, otherwise the penalty clause will be the same as per the supply of materials.

In case of any mishapening/damage to equipment and supplies during the carriage of supplies from the origin of equipment to the installation site, the supplier has to replace it with new equipment/supplies immediately at his own risk. Supplier will settle his claim with the insurance company as per his convenience. IITD will not be liable to any type of losses in any form.

24. **Insurance:** For delivery of goods at the purchaser’s premises, the insurance shall be obtained by the supplier in an amount equal to 110% of the value of the goods from “warehouse to warehouse” (final destinations) on “All Risks” basis including War Risks and Strikes. The insurance shall be valid for a period of not less than 3 months after installation and commissioning.

25. **Incidental services:** The incidental services also include:
- Furnishing of 01 set of detailed operations & maintenance manual.
- Arranging the shifting/moving of the item to their location of final installation within IITD premises at the cost of Supplier through their Indian representatives.

26. **Warranty:**
(i) Warranty period shall be (as stated at page #2 of this tender) from date of installation of Goods at the IITD site of installation. The Supplier shall, in addition, comply with the performance and/or consumption guarantees specified under the contract. If for reasons attributable to the Supplier, these guarantees are not attained in whole or in part, the Supplier shall at its discretion make such changes, modifications, and/or additions to the Goods or any part thereof as may be necessary in order to attain the contractual guarantees specified in the Contract at its own cost and expense and to carry out further performance tests. The warranty should be comprehensive on site.

(ii) The Purchaser shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall immediately within in 02 days arrange to repair or replace the defective goods or parts thereof free of cost at the ultimate destination. The Supplier shall take over the replaced parts/goods at the time of their replacement. No claim whatsoever shall lie on the Purchaser for the replaced parts/goods thereafter. The period for correction of defects in the warranty period is 02 days. If the supplier having been notified fails to remedy the defects within 02 days, the purchaser may
proceed to take such remedial action as may be necessary, at the supplier’s risk and expenses and without prejudice to any other rights, which the purchaser may have against the supplier under the contract.

(iii) The warranty period should be clearly mentioned. The maintenance charges (AMC) under different schemes after the expiry of the warranty should also be mentioned. The comprehensive warranty will commence from the date of the satisfactory installation/commissioning of the equipment against the defect of any manufacturing, workmanship and poor quality of the components.

(iv) After the warranty period is over, Annual Maintenance Contract (AMC)/Comprehensive Maintenance Contract (CMC) up to next two years should be started. The AMC/CMC charges will not be included in computing the total cost of the equipment.

| 27. | **Governing Language:** | The contract shall be written in English language. English language version of the Contract shall govern its interpretation. All correspondence and other documents pertaining to the Contract, which are exchanged by the parties, shall be written in the same language. |
| 28. | **Applicable Law:** | The Contract shall be interpreted in accordance with the laws of the Union of India and all disputes shall be subject to place of jurisdiction. |
| 29. | **Notices:** | - Any notice given by one party to the other pursuant to this contract/order shall be sent to the other party in writing or by email and confirmed in writing to the other party’s address.  
  - A notice shall be effective when delivered or on the notice’s effective date, whichever is later. |
| 30. | **Taxes:** | Suppliers shall be entirely responsible for all taxes, duties, license fees, octroi, road permits, etc., incurred until delivery of the contracted Goods to the Purchaser. However, GST etc., in respect of the transaction between the Purchaser and the Supplier shall be payable extra, if so stipulated in the order.  
For research purpose(s) ONLY, 5% GST will be applicable with concessional GST Certificate. |
| 31. | **Duties:** | IIT Delhi is exempted from paying custom duty under notification No.51/96 (partially or full) and necessary “Custom Duty Exemption Certificate” can be issued after providing following information and Custom Duty Exemption Certificate will be issued to the shipment in the name of the Institute, (no certificate will be issued to third party):  
The procured product should be used for teaching, scientific and research work only.  
a) Shipping details i.e. Master Airway Bill No. and House Airway No. (if exists)  
b) Forwarder details i.e. Name, Contact No., etc.  
IIT Delhi is partially exempted from paying GST and necessary GST Exemption Certificate will be provided for which following information are required.  
b) Quotation with details of Basic Price, Rate, Tax & Amount on which ED is applicable  
c) Supply Order Copy  
d) Proforma-Invoice Copy. |
| 32. | **Payment:** | 100% payment shall be made by the Purchaser against delivery, inspection, successful installation, commissioning and acceptance of the equipment at IITD in good condition and to the entire satisfaction of the Purchaser and on production of unconditional performance bank guarantee as specified in Clause 8 of tender terms and conditions. |
33. **User list:** Brochure detailing technical specifications and performance, list of industrial and educational establishments where the items enquired have been supplied must be provided. (Ref. Annexure-III)

34. **Manuals and Drawings:**
   (i) Before the goods and equipment are taken over by the Purchaser, the Supplier shall supply operation and maintenance manuals. These shall be in such details as will enable the Purchaser to operate, maintain, adjust and repair all parts of the works as stated in the specifications.
   (ii) The Manuals shall be in the ruling language (English) in such form and numbers as stated in the contract.
   (iii) Unless and otherwise agreed, the goods equipment shall not be considered to be completed for the purposes of taking over until such manuals and drawing have been supplied to the Purchaser.

35. **Application Specialist:** The Tenderer should mention in the Techno-Commercial bid the availability and names of Application Specialist and Service Engineers in the nearest regional office. (Ref. to Annexure-III)

36. **Site Preparation:** The supplier shall inform to the Institute about the site preparation, if any, needed for the installation of equipment, immediately after the receipt of the purchase order. The supplier must provide complete details regarding space and all the other infrastructural requirements needed for the equipment, which the Institute should arrange before the arrival of the equipment to ensure its timely installation and smooth operation thereafter. The supplier shall visit the Institute and see the site where the equipment is to be installed and may offer his advice and render assistance to the Institute in the preparation of the site and other pre-installation requirements.

37. **Spare Parts**
   The Supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the Supplier:
   ii. Such spare parts as the Purchaser may elect to purchase from the Supplier, providing that this election shall not relieve the Supplier of any warranty obligations under the Contract; and
   iii. In the event of termination of production of the spare parts:
   iv. Advance notification to the Purchaser of the pending termination, in sufficient time to permit the Purchaser to procure needed requirements; and
   v. Following such termination, furnishing at no cost to the Purchaser, the blueprints, drawings and specifications of the spare parts, if requested. Supplier shall carry sufficient inventories to assure ex-stock supply of consumable spares for the Goods, such as gaskets, plugs, washers, belts etc. Other spare parts and components shall be supplied as promptly as possible but in any case within six months of placement of order.

38. **Defective Equipment:** If any of the equipment supplied by the Tenderer is found to be substandard, refurbished, un-merchantable or not in accordance with the description/specification or otherwise faulty, the committee will have the right to reject the equipment or its part. The prices of such equipment shall be refunded by the Tenderer with 18% interest if such payments for such equipment have already been made. All damaged or unapproved goods shall be returned at suppliers cost and risk and the incidental expenses incurred thereon shall be recovered from the supplier. Defective part in equipment, if found before installation and/or during warranty period, shall be replaced within 45 days on receipt of the intimation from this office at the cost and risk of supplier including all other charges. In case supplier fails to replace above item as per above terms & conditions, IIT Delhi may consider "Banning" the supplier.

39. **Termination for Default:**
   The Purchaser may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Supplier, terminate the Contract in whole or part:
i. If the Supplier fails to deliver any or all of the Goods within the period(s) specified in the order, or within any extension thereof granted by the Purchaser; or
ii. If the Supplier fails to perform any other obligation(s) under the Contract.
iii. If the Supplier, in the judgment of the Purchaser has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

- For the purpose of this Clause:
  i. “Corrupt practice” means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.
  ii. “Fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition;”

- In the event the Purchaser terminates the Contract in whole or in part, the Purchaser may procure, upon such terms and in such manner, as it deems appropriate, Goods or Services similar to those undelivered, and the Supplier shall be liable to the Purchaser for any excess costs for such similar Goods or Services. However, the Supplier shall continue the performance of the Contract to the extent not terminated.

40. **Downtime:** During the warranty period not more than 5% downtime will be permissible. For every day exceeding permissible downtime, penalty of 1/365 of the 5% item value will be imposed. Downtime will be counted from the date and time of the filing of complaint with in the business hours.

41. **Training of Personnel:** The supplier shall be required to undertake to provide the technical training to the personnel involved in the use of the equipment at the Institute premises, immediately after completing the installation of the equipment for a minimum period of one week at the supplier’s cost.

42. **Disputes and Jurisdiction:** Any legal disputes arising out of any breach of contract pertaining to this tender shall be settled in the court of competent jurisdiction located within New Delhi.

43. **Compliancy certificate:** This certificate must be provided indicating conformity to the technical specifications. (Annexure-I)

44. **As per Ministry of Finance, Deptt. of Expenditure, Public Procurement Division Order (Public Procurement No.1) issued from file No.6/18/2019-PPD dated 23rd July, 2020 regarding Restrictions under Rule 144 (xi) of the General Financial Rules (GFRs) 2017, it is directed that any bidder from a country which shares a land border with India will be eligible to bid in any procurement whether of goods, services (including consultancy services and non-consultancy services) or works (including turnkey projects) only if the bidder is registered with the Competent Authority i.e. the Deptt. for Promotion of Industry and Internal Trade (DPIIT). The said order will not apply to bidders from those countries (even sharing a land border with India) to which the Government of India has extended lines of credit or in which the Government of India is engaged in development projects (updated lists of the countries are given in the Ministry of External Affairs)

“Bidder” (including the term ‘tenderer’, ‘consultant’ or ‘service provider’ in certain contexts) means any person or firm or company, including any member of a consortium or joint venture (that is an association of several persons, or firms or companies), every artificial juridical person not falling in any of the descriptions of bidders stated hereinbefore, including any agency branch or office controlled by such person, participated in a procurement process.
“Bidders from a country which shares a land border with India” for the purpose of this Order means:

i. An entity incorporated, established or registered in such a country; or
ii. A subsidiary of an entity incorporated, established or registered in such a country; or
iii. An entity substantially controlled through entities incorporated, established or registered in such a country; or
iv. An entity whose *beneficial owner* is situated in such a country; or
v. An Indian (or other) agent of such an entity; or
vi. A natural person who is the citizen of such a country; or
vii. A consortium or joint venture where any member of the consortium or joint venture falls under any of the above

The *beneficial owner* for the purpose of above will be as under:

1. In case of a company or Limited Liability Partnership, the beneficial owner is the natural person (s), who, whether acting alone or together, or through one or more juridical person, has a controlling ownership interest or who exercise control through other means.

   **Explanation**
   a. “Controlling ownership interest” means ownership of or entitlement to more than twenty-five per cent of share or capital or profit of the company;
   b. “Control” shall include the right to appoint majority of the directors or to control the management of policy decisions including by virtue of their shareholding or management rights or shareholders agreements or voting agreements;

2. In case of a partnership firm, the beneficial owner is the natural person (s) who, whether acting alone or together, or through one or more juridical person, has ownership of entitlement to more than fifteen percent of capital or profits of the partnership;

3. In case of an unincorporated association or body of individuals, the beneficial owner is the natural person (s), who, whether acting alone or together, or through one or more juridical person, has ownership of or entitlement to more than fifteen percent of the property or capital or profits of such association or body of individuals;

4. Where no natural person is identified under (1) or (2) or (3) above, the beneficial owner is the relevant natural person who holds the position of senior managing official;

5. In case of a trust, the identification of beneficial owner(s) shall include identification of the author of the trust, the trustee, the beneficiaries with fifteen percent or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

An agent is a person employed to do any act for another, or to represent another in dealings with the third person.

For Works contracts, including Turnkey contracts, the successful bidder shall not be allowed to sub-contract works to any contractor from a country which shares a land border with India unless such contractor is registered with the Competent Authority.

**A certificate shall be submitted by bidders in the tender documents regarding their compliance with the said order.** If the certificate submitted by a bidder whose bid is accepted is found to be false, this would be a ground for immediate termination and further legal action in accordance with law. Annexure VI (For Goods/Services contracts)/Annexure VII (For Works contracts, including Turnkey contracts)
It is mandatory for bidders to quote items having local content minimum 20%. Refer revised Public Procurement (Preference to Make in India), Order 2017, No. P-45021/2/2017-PP (B.E-II) dated 16.09.2020 issued by DPIIT, Ministry of Commerce and Industry, Govt. of India. (Submit duly filled Annexure VIII for the same). The Annexure VIII once submitted in the Technical Bid will be final. Submission of Revised Annexure VIII will NOT be accepted.

As per O.M. of DPIIT, Ministry of Commerce and Industry, Govt. of India No.P-45021/102/2019-BE-II- Part (1) (E-50310) Dated 04.03.2021, Bidders offering Imported products will fall under the category of Non_Local Suppliers. They cannot claim themselves as Class-I or Class –II Local Suppliers by claiming the services such as Transportation, Insurance, Installation, Commissioning, Training and After Sale Service Support like AMC/CMC etc. as Local Value Addition.

General Qualification

1) Only those shall quote, who or their principal have supplied and commissioned at least 2-3 number of similar capacity UTM (including accessories like grips, extensometer etc.) machines to recognized institutions in the past 5 years. Details to be provided as and when asked.
2) Supporting documents like product information, catalogues etc. shall be furnished along with technical bid as requested.
3) They may also be asked to arrange a live demonstration of machine/accessories during technical evaluation before commercial bid opening.
4) No customized solution will be qualified and it must be a standard product.
5) Supplier should have direct presence, operations and services in India and registered office in the name of original manufacturer. The country of manufacture of machine and accessories must be clearly indicated by the supplier.
6) Vendor must have well-functioning service center in India with a proven service record. Details to be submitted.

Technical specifications for load frame, controller, accessories, application software are given below:

<table>
<thead>
<tr>
<th>(A) Load Frame</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Floor standing design</td>
</tr>
<tr>
<td></td>
<td>- The machine should come with an alignment adapter</td>
</tr>
<tr>
<td></td>
<td>- A servomotor shall be used for drive system for low maintenance and high torque.</td>
</tr>
</tbody>
</table>
- Non-clutched AC drives rated for full speed at maximum force
- The system shall have a cross head guidance system to compensate for wobble, forces, and moments.
- The ball screws and guidance system should be protected from dust and dirt.
- The system shall ensure increased crosshead position accuracy, repeatability and zero backlash.
- To improve axial stiffness (420 kN/mm or better) and concentric load train alignment, load cells shall be flush mounted to the crosshead with a single stud.
- Column protection over total traverse stroke.
- Power indication and emergency stop switches should be given with the machine.

Technical Specifications of load frame:
- **Frame Max Load capacity**: 300kN (or higher) Electromechanical, screw driven, twin-column, floor standing model.
- **Load cell**: +/- 300kN (or higher) (Tension/Compression) with force range 1% to 100% capacity and with accuracy +/- 0.6% (or better) of reading.
- **Rated maximum force** at maximum test speed: 100%
- **Rated maximum test speed** at maximum force: 100%
- **Crosshead travel**: 1400 mm (or better)
- **Crosshead speed of traverse**: variable between 0.005 to 400 mm/min or better
- **Cross head speed accuracy**: within +1% (or less) for the entire speed range
- **Position resolution** of should be 0.050 micrometer or better
- **Servo controlled digital closed-loop controls** to test in load, position and strain control.
- **Return speed**: 500mm/min or better.
- **Vertical test space**: 1800 mm or more, minimum horizontal test space: 650mm or more suitable for mounting components (future plan)
- **Dimensions (height x width x depth), not to exceed individually**: (3.0m x 1.5m x 1.5m)
- **Machine** should be operable on three phase and power requirement compatible on Indian standards

<table>
<thead>
<tr>
<th>(B)</th>
<th>Crosshead measurement system</th>
</tr>
</thead>
<tbody>
<tr>
<td>The test system shall utilize the motor’s encoder to acquire crosshead position data. This positioning sensor can measure either relative changes in position or absolute position</td>
<td></td>
</tr>
</tbody>
</table>
| (C) | Load Measurement system | - A set of two load cells should be provided with UTM (300kN (or higher) and 10 kN – suitable adapters to be provided for lower load cell to be used with the machine  
- Load cells shall include self-identification as follows:  
  v. Calibration data shall be integral to the transducer.  
  vi. Calibration history shall be integral and part of the transducer.  
  vii. Automatic shunt calibration shall be integral to the transducer.  
  viii. Re-calibration of the load cell shall require no manual adjustments or transducer disassembly.  
- Cabling for load cells shall be shielded for noise resistance and run internally from the controller to the load cell.  
- Cables shall be connected at the crosshead to reduce noise, cable length, and problems with entanglement during testing.  
- Load cells shall be capable of full load in both tension and compression.  
- Lower capacity load cells shall be mechanically protected against 140% overload (or better).  
- The excitation to all devices is removed when the test software is exited.  
- The 10kN load cell should be mountable on the hydraulic grips. |
| (D) | Strain Measurement System | - Strain measurement system shall conform to, meet, or exceed ASTM E-83, 8S3846, ISO 8513, and EN 10002-4.  
- The strain measurement system shall be capable of conditioning and accepting inputs from DC devices (e.g., strain gage based), and digital devices (e.g., encoders). |
| (E) | Control System & Software | - The control system shall provide closed loop control of the testing system at 500 Hz or more.  
- The controller shall be capable of closed loop control on any input related to displacement. Control software must support position commands and outer loop control on load and strain.  
- **Handset**  
  o A handset (to be provided) shall be located at the machine. |
and provide the following features:
- Start test, Stop Test, Pause
- Crosshead Return
- Programmable jog functions
- Fine positioning control such as a thumbwheel

**Software**
- The software should have a perpetual license at no additional cost
- The test system PC shall be compatible with Microsoft Windows (latest version) with software for controlling and defining the test and for data acquisition
- Test software shall provide standard templates for running monotonic tests (tensile, compression, bend)
- Test Software shall have graphical drag-and-drop test layout design. Must be possible to create test templates.
- Should have complete package of all tests (i.e. Tensile tests, Compression tests, Cycling tests, relaxation tests, as per all the international standards ISO, ASTM etc.) for metals, plastic, wood, composites.

**Test Definition and Execution Application**
- Application software shall allow the operator to graphically build and run monotonic and cyclic tests. Features and functions include:
  - Test template creation
  - Data acquisition (timed, P/V, level crossing, cyclic/logarithmic)
  - Function generation—Sine, square, triangle, ramp, hold processes
  - Parallel branches for test execution and logical operators (if/then, while)
  - Limit sensing, sequencing triggers, and interface to digital I/O
  - Real time validation of all input parameters during test design
- User should be able to modify test and machine parameters.

**Report Generation Application**
- Shall provide ability to output data in Excel.

**Data acquisition**
- The system shall be capable of simultaneously acquiring data through following onboard channels: load cell, time, crosshead position, two analog strain inputs and one digital optical encoder input.
- The testing system electronics shall incorporate digital data acquisition at a rate of at least 500 Hz throughput to the data storage device on each data channel.
- Data shall be sampled simultaneously on all onboard channels to eliminate time skew.
- The system shall be capable of acquiring data from additional digital and analog channels.

**Real-time display**
- A programmable digital display shall be provided capable of displaying at a minimum:
  - All physical data channels
  - All calculated data channels

| (F) | Thermal Chamber | Thermal Chamber with Liquid Nitrogen handling capability: shall be capable of testing composite and other materials at desired temperatures and should have following features:
  - Minimum internal dimensions (Width x Depth x Height): 300 x 400 x 800 mm
  - Temperature Range -50°C to 250°C (or better)
  - A combination of Extension Rods (Pull and/or Push Rods) should be supplied with chamber, depending on the load cell and accessories being used inside the chamber
  - Should be provided with suitable mounts to fit in load frame, with remote set point cable
  - Chamber should be provided with Door Switch kit with interlock to avoid any accident
  - Compatible with Indian electric power standards |

| (G) | Grips and Fixtures for Tensile Testing (Manual Operation) | A set of manual grips to be provided for testing of composites plastics, rubber, etc.
  - Static Force: 10 kN
  - Actuation Type: Manual
  - Temperature Rating: -50°C to 175°C (or better)
  - Wedge Set/ Inserts for flat specimen should be serrated surface suitable for sample size 0-13mm |
| (H) | **Grips and Fixtures for Tensile Testing (Hydraulic Operation)** | Hydraulic Wedge Action grips are versatile grips for a wide range of tensile applications. It features side loading capability for easy specimen insertion. The grips are designed to ensure even specimen loading across the entire face of the wedge and to minimize bending strains.  
- Force Capacity: 250 kN (or above)  
- Actuation Type: Hydraulic  
- Temperature Rating: -50°C to 175°C (or better)  
- Wedge Set/Inserts for flat specimen with width 50mm (or better), suitable for sample size 1-25mm (or better)  
- V-Wedge Set/Inserts for round specimen should be serrated surface with wedge width of 50mm (or better), suitable for sample size 7-25 mm (or better)  
- Supplied complete with hydraulic grip controller. It should be designed to run continuously, resulting in high pressure stability and easy adjustment of the output pressure. The unit should have individual directional control valves for the upper and lower grips, and adjustable grip closure rate.  
- Usable in thermal chamber in the given range.  
- Power requirements conforming to Indian standards  
- Should come with alignment adapter to adjust alignment |

<tr>
<td></td>
<td>Temperature Range: -50 to 175°C</td>
</tr>
<tr>
<td></td>
<td>Attachment compression fixture to high temperature load frame</td>
</tr>
</tbody>
</table>
- Should be mountable on the machine without removal of hydraulic grips and work inside the thermal chamber

**Flatwise Plane Shear Fixture; Tensile Mode as per ASTM C273**
Suitable for flatwise plane shear testing of the tensile mode in accordance with ASTM C273
- Temperature Range: -50 to 175°C
- Maximum Capacity: 80 kN (or higher)
- Should be mountable on the machine without removal of hydraulic grips and work inside the thermal chamber

**Peel test setup**
- Low Force (compatible with 10 kN load cell) test fixture for peel adhesion strength testing.
- Should be mountable on the machine without removal of hydraulic grips for 10kN load cell

**Extensometers**

1. **Biaxial Extensometer**
   To measure Poisson’s ratio
   - Gage length: 25 mm
   - Travel axial: +1.25 and -0.50 mm
   - Travel transverse: +/- 0.50 mm
   - Temperature range: -50 to 150°C
   - Strain range: +5% / -2%
   - Should be mountable on the machine without removal of hydraulic grips
   - Desirable, but not necessary, to work inside the thermal chamber

2. **Video Extensometer**
   - Video extensometer is required for non-contact strain measurement
   - DIC and post-processing software (perpetual license at no extra cost)

3. **Automatic Extensometer**
   - Strain measurement up to specimen break point
   - Automatic self-adjusting gage length positioning to ensure test consistency
   - Automatic clamping and unclamping on sample
   - 300 mm (or more) arm length
   - Gauge length: 15-100 mm (or better)
   - Deformation Measurement Range: 0 - 80 mm
   - Resolution: 0.2 μm (or better)
   - Thickness/Diameter: upto 40 mm
   - Desirably, but not necessarily, should be able to measure Poisson’s ratio at room temperature

4. **Axial Extensometer (clip-on type)**
- The extensometer is ideally suited for tensile testing of plastics
- Desirable, but not necessary, to be able to measure through failure without damaging
- Low activation force
- The standard model includes knife edges and quick attachment fixtures for both flat and round specimens.
- Gage length: 50.00 mm
- Travel: 25 mm
- Desirable, but not necessary, to work inside the thermal chamber
- Strain Range: +50% / -10%

I have also enclosed all relevant documents in support of my claims, (as above) in the following pages.

We, __________________________ hereby certify that all the information and data furnished by our organization with regard to this tender specification are true and complete to the best of our knowledge. I have gone through the specification, conditions and stipulations in details and agree to comply with the requirements and intent of specification.

This is certified that our organization has been authorized (Copy attached) by the OEM to participate in Tender. We further certified that our organization meets all the conditions of eligibility criteria laid down in this tender document. Moreover, OEM has agreed to support on regular basis with technology / product updates and extend support for the warranty.

The prices quoted in the financial bids are subsidized due to academic discount given to IIT Delhi.

ANNEXURE-V (Revised)

Tender No. :- ……………………………… Date:- …………..

To
The Director,
Indian Institute of Technology Delhi,
New Delhi- 110016

Dear Sir,

We manufactures of original equipment at (…………………………..address of factory…………………………..) do hereby authorize M/s (Name and address of Agent) to submit a bid, negotiate and receive the order format against your tender enquiry.

M/s. ………………………………….. is authorized to bid and conclude the contract in regard to this business.

We hereby extend our full guarantee and warranty as per clause ………………………… of the terms and conditions NIQ for the goods and services offered by the above firm.

Yours Faithfully,

(Name)

(Name & Seal of Manufactures)

Note: -

1. **Items of indigenous nature or quoted in INR**, more than 1 authorized representative may participate in the same tender and submit their bids on behalf of their OEM/Principal/Manufacturer if the OEM permits more than one authorized bidder in such case as per their policy.

2. **In cases of agents quoting in offshore procurements**, on behalf of their principal manufacturers, one agent cannot represent two manufacturers or quote on their behalf in a particular tender enquiry. **One manufacturer can also authorize only one agent/dealer**

3. The letter of authority should be on the letterhead of the manufacturer and should be signed by a person competent and having the power of attorney to bind the manufacturer. The same should be included by the bidder in its techno-commercial unpriced bid.
CERTIFICATE

I have read the clause regarding restrictions on procurement from a bidder of a country which shares a land border with India and hereby certify that this bidder is not from such a country.

OR (whichever is applicable)

I have read the clause regarding restrictions on procurement from a bidder of a country which shares a land border with India and hereby certify that this bidder is from _____________ (Name of Country) and has been registered with the Competent Authority. I also certify that this bidder fulfills all the requirements in this regard and is eligible to be considered.

(Copy/ evidence of valid registration by the Competent Authority is to be attached)

DECLARATION OF LOCAL CONTENT
(To be given on Company Letter Head – For tender value below Rs. 10 Crores)
(To be given by Statutory Auditor/ Cost Auditor/ Cost Accountant/ CA for tender value above Rs. 10 Crores)

To,
The Director,
Indian Institute of Technology Delhi
New Delhi-110016

Subject: Declaration of Local Content

Tender Reference No:_____________________

Name of Tender/ Work: __________________________________________________________

2. We hereby declare that items offered has ________% local content

3. Details of the Location at which the Local Value Addition is made___________________________

4. Details of Local Content

“Local Content” means the amount of value added in India which shall, unless otherwise prescribed by the Nodal Ministry, be the total value of the item procured (excluding net domestic indirect taxes) minus the value of the imported content in the item (including all customs duties) as a proportion of the total value, in percent.

Bidders offering Imported products will fall under the category of Non_Local Suppliers. They cannot claim themselves as Class-I or Class –II Local Suppliers by claiming the services such as Transportation, Insurance, Installation, Commissioning, Training and After Sale Service Support like AMC/ CMC etc. as Local Value Addition.

“*False declaration will be in breach of Code of Integrity under Rule 175(1)(i)(h) of the General Financial Rules for which a bidder or its successors can be debarred for up to two years as per Rule 151(iii) of the General Financial Rules along with such other actions as may be permissible under law.”

Yours faithfully,

(Signature of the bidder, with Official Seal)

Note: It is mandatory for bidders to quote items having local content minimum 20%. Refer revised Public Procurement (Preference to Make in India), Order 2017, No. P-45021/2/2017-PP (B.E-II) dated 16.09.2020 issued by DPIIT, Ministry of Commerce and Industry, Govt. of India. (Submit duly filled Annexure VIII for the same). The Annexure VIII once submitted in the Technical Bid will be final. Submission of Revised Annexure VIII will NOT be accepted.
BID SECURITY UNDERTAKING
(To be issued by the bidder on company’s letterhead in lieu of EMD)

To,

The Registrar,
I.I.T. Delhi, Hauz Khas,
Delhi – 110016.

We, M/s ____________________________ (Name of the Firm), with ref. to Tender No. ____________ dated ________ hereby undertake that:

1. We accept all terms and conditions of the tender document.
2. We accept that, we will not modify our bid during the bid validity period and will honour the contract after the award of contract.
3. In the event of any modification to our bid by us or failure on our part to honour the contract after final award, our firm may be debarred from participation in any tender/contract notified by IIT Delhi for a period of one year.

Yours faithfully,

(Signature)
