INSTRUCTIONS FOR ONLINE BID SUBMISSION

C.....Nil

I..... Nil

O..... Nil

D'Man /J.E.

A.E.E , SS

E.E(E).

As per the directives of Department of Expenditure, this Quotation / tender document has been published on the Central Public Procurement Portal ([URL:http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app)). The bidder are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidder in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at:

<http://eprocure.gov.in/eprocure/app>

REGISTRATION

- 1) Bidder are required to enroll on the e-Procurement module of the Central Public Procurement Portal ([URL:http://eprocure.gov.in/eprocure/app](http://eprocure.gov.in/eprocure/app)) by clicking on the link "Click here to Enroll". Enrolment on the CPP Portal is free of charge.
- 2) As part of the enrolment process, the bidder will be required to choose a unique username and assign a password for their accounts.
- 3) Bidder are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- 4) Upon enrolment, the bidder will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.
- 5) Only one valid DSC should be registered by a bidder. Please note that the bidder are responsible to ensure that they do not lend their DSCs to others which may lead to misuse.
- 6) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

SEARCHING FOR QUOTATION /TENDER DOCUMENTS

- 1) There are various search options built in the CPP Portal, to facilitate bidder to search active Quotations / Tender by several parameters. These parameters could include Quotation ID, organization name, location, date, value, etc. There is also an option of advanced search for Quotations, wherein the bidder may combine a number of search parameters such as organization name, form of contract, location, date, other keywords etc. to search for a Quotation published on the CPP Portal.
- 2) Once the bidder have selected the Quotations they are interested in, they may download the required documents / Quotation schedules. These Quotations can be moved to the respective 'My Quotations' folder. This would enable the CPP Portal to intimate the bidder through SMS / e-mail in case there is any corrigendum issued to the Quotation document.
- 3) The bidder should make a note of the unique Quotation ID assigned to each Quotation / Tender, in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS

- 1) Bidder should take into account any corrigendum published on the Quotation document before submitting their bids.
- 2) Please go through the Quotation / Tender advertisement and the Quotation / Tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in

C.....Nil

I..... Nil

O..... Nil

D'Man /J.E.

A.E.E , SS

E.E(E).

which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

- 3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the Quotation document / schedule and generally, they can be in PDF / XLS / RAR / DWF formats. Bid documents may be scanned with 100 dpi with black and white option.
- 4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidder. Bidder can use "My Space" area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS

- 1) Bidder should log into the site well in advance for bid submission so that he/she upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- 2) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the Quotation document.
- 3) A standard BoQ format has been provided with the Quotation document to be filled by all the bidder. Bidder are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. Bidder are required to download the BoQ file, open it and complete the white colored (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.

OR

In some cases Financial Bids can be submitted in PDF format as well (in lieu of BOQ).

- 4) The server time (which is displayed on the bidder' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidder, opening of bids etc. The bidder should follow this time during bid submission.
- 5) All the documents being submitted by the bidder would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done.
- 6) The uploaded Quotation documents become readable only after the Quotation opening by the authorized bid openers.
- 7) Upon the successful and timely submission of bids, the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.
- 8) Kindly add scanned PDF of all relevant documents in a single PDF file of compliance sheet.

ASSISTANCE TO BIDDER

- 1) Any queries relating to the Quotation document and the terms and conditions contained therein should be addressed to the Quotation Inviting Authority for a Quotation or the relevant contact person indicated in the Quotation.
- 2) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk. The contact number for the helpdesk is 1800 233 7315.

GENERAL INSTRUCTIONS TO THE BIDDER

- 1) The Quotations will be received online through portal <http://eprocure.gov.in/eprocure/app>. In the Technical Bids, the bidder are required to upload all the documents in .pdf format.
- 2) Possession of a Valid Class- III Digital Signature Certificate (DSC) in the form of smart card/e-token in the company's name is a prerequisite for registration and participating in the bid submission activities through <https://eprocure.gov.in/eprocure/app>. Digital Signature Certificates can be obtained from the authorized certifying agencies, details of which are available in the web site <https://eprocure.gov.in/eprocure/app> under the link "Information about DSC".

Bidder are advised to follow the instructions provided in the 'Instructions to the Bidder' for the e-submission of the bids online through the Central Public Procurement Portal for e Procurement at <https://eprocure.gov.in/eprocure/app>.

INDIAN INSTITUTE OF TECHNOLOGY DELHI NOTICE INVITING E-TENDER

Executive Engineer Electrical, Indian Institute of Technology Delhi, Hauz Khas, New Delhi – 100016 [Phone No. 011-26591762] on behalf of Board of Governors invites online **Item Rate Tender** from Specialized Firms/ Contractors of repute for the following work:

- 1.1 The work is estimated to cost **Rs.4,82,42,104/- (Inclusive GST)**-This estimate, however, is given merely as a rough guide.
 - 1.1.1 The authority competent to approve NIT for the combined cost and belonging to the major discipline will consolidate NITs for calling the bids. He will also nominate Division which will deal with all matters relating to the invitation of bids.
For composite bid, besides indicating the combined estimated cost put to tender, should clearly indicate the estimated cost of each component separately. The eligibility of bidder will correspond to the combined estimated cost of different components put to bid.
- 1.2 Intending bidder is eligible to submit the bid provided he has definite proof from the appropriate authority, which shall be to the satisfaction of the competent authority, of having satisfactorily completed similar works of magnitude specified below:-

Criteria of eligibility for submission of bid documents.

1.2.1 Criteria of eligibility for CPWD as well as non-CPWD contractors for specialize work.

To Firms/Contractors should have satisfactorily completed one similar work of value not less than **Rs, 3,85,93,683**/or two similar works each of value not less than **Rs. 2,89,45,262/** or three similar works each of value not less than **Rs. 1,92,96,841/-** during last 7 years ending previous day of last date of submission of bids.

1.2.2 To become eligible for issue of bid, the bidder shall have to furnish an affidavit as under :-

“I / We undertake and confirm that eligible similar works(s) has/have not been got executed through another contractor on back to back basis. Further that, if such a violation comes to the notice of Department, then I / We shall be debarred for bidding in IIT Delhi in future forever. Also, if such a violation comes to the notice of Department before date of start of work, the Engineer-in-Charge shall be free to forfeit the entire amount of Earnest Money Deposit/Performance Guarantee (Scanned copy to be uploaded at the time of submission of bid)”

2. **Agreement shall be drawn with the successful bidder on prescribed Form No. IITD 7/8 which is available as IIT Delhi Publication. Bidder shall quote their rates as per various terms and conditions of the said form which will form part of the agreement.**
3. The time allowed for carrying out the work will be **06 months** from the date of start as defined in schedule ‘F’ or from the first date of handing over of the site, whichever is later, in accordance with the phasing, if any, indicated in the bid documents.

C.....Nil

I..... Nil

O..... Nil

4. The site for the work is available.
5. The bid document consisting of plans, specifications, the schedule of quantities of various types of items to be executed and the set of terms and conditions of the contract to be complied with and other necessary documents except Standard General Conditions of Contract Form can be seen from the web Site **e-procure.gov.in**.
6. After submission of the bid the contractor can re-submit revised bid any number of times but before last time and date of submission of tender as notified.
7. While submitting the revised bid, contractor can revise the rate of one or more item(s) any number of times (he need not re-enter rate of all the items) but before last time and date of submission of tender as notified.
8. If it is desired to submit revised financial bid then it shall be mandatory to submit revised financial bid. If not submitted then the tender submitted earlier shall become invalid.
9. Earnest Money as specified to be paid through RTGS / NEFT.

IIT Delhi Bank details are as under:

Name of the Bank A/C	: IITD Revenue Account

- themselves obtain all necessary information as to risks, contingencies and other circumstances which may influence or affect their bid. A bidder shall be deemed to have full knowledge of the site whether he inspects it or not and no extra charge consequent on any misunderstanding or otherwise shall be allowed. The bidder shall be responsible for arranging and maintaining at his own cost all materials, tools & plants, water, electricity access, facilities for workers and all other services required for executing the work unless otherwise specifically provided for in the contract documents. Submission of a bid by a bidder implies that he has read this notice and all other contract documents and has made himself aware of the scope and specifications of the work to be done and of conditions and rates at which stores, tools and plant, etc. will be issued to him by the Government and local conditions and other factors having a bearing on the execution of the work.
13. The competent authority on behalf of the Board of Governors does not bind itself to accept the lowest or any other bid and reserves to itself the authority to reject any or all the bids received without the assignment of any reason. All bids in which any of the prescribed condition is not fulfilled or any condition including that of conditional rebate is put forth by the bidder shall be summarily rejected.
 14. Canvassing whether directly or indirectly, in connection with bidder is strictly prohibited and the bids submitted by the contractors who resort to canvassing will be liable for rejection.
 15. The competent authority on behalf of the Board of Governors reserves to himself the right of accepting the whole or any part of the bid and the bidder shall be bound to perform the same at the rate quoted.
 16. The contractor shall not be permitted to bid for works in the IITD responsible for award and execution of contracts, in which his near relative is posted a Divisional Accountant or as an officer in any capacity between the grades of Superintending Engineer and Junior Engineer (both inclusive). He shall also intimate the names of persons who are working with him in any capacity or are subsequently employed by him and who are near relatives to any Gazetted officer in the IIT Delhi. Any breach of this condition by the contractor would render him liable to be debarred from bidding process in future in IIT Delhi.
 17. No Engineer of Gazetted rank or other Gazetted Officer employed in Engineering or Administrative duties in an Engineering Department of the Government of India is allowed to work as a contractor for a period of one year after his retirement from Government service, without the prior permission of the Government of India in writing. This contract liable to be cancelled, if, either the contractor or any of his employees is found any time to be such a person who had not obtained the permission of the Government of India as aforesaid before submission of the bid or engagement in the contractor's service.
 18. The bid for the works shall remain open for acceptance for a period of **ninety [90] days from the date of opening of financial bids**, if any bidder withdraws his bid before the said period or issue of letter of acceptance, whichever is earlier, or makes any modifications in the terms and conditions of the bid which are not acceptable to the department, then the IIT Delhi shall, without prejudice to any other right or remedy, be at liberty to forfeit 50% of the said earnest money as aforesaid. Further the bidder shall not be allowed to participate in the re-bidding process of the work.
 19. This notice inviting bid shall form a part of the contract document. The successful bidder / contractor, on acceptance of his bid by the Accepting Authority shall **within 15 days** from the stipulated date of start of the work, sign the contract consisting of:-
 - a) The Notice Inviting Bid, all the documents including additional conditions, specifications and drawings, if any, forming part of the bid as uploaded at the time of invitation of bid and the rates quoted online at the time of submission of bid and acceptance thereof together with any correspondence leading thereto.
 - b) Standard IITD Form –7/8 or other Standard IITD Form as applicable.
 20. In case any discrepancy is noticed between the documents as uploaded at the time of submission of the bid online and hard copies as to be submitted physically in IIT Delhi, if so desired by the accepting authority, then the bid submitted shall become invalid and the IIT Delhi shall, without prejudice to any other right or remedy, be at liberty to forfeit 50% of the said earnest money as aforesaid. Further the bidder shall not be allowed to participate in the bidding process of the work.

Subject: Submission of Bid for the work of Supply, Installation, Testing & Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi.

Dear Sir,

I / We acknowledge that IITD. is committed to follow the principles thereof as enumerated in the Integrity Agreement enclosed with the tender/bid document.

I / We agree that the Notice Inviting Tender (NIT) is an invitation to offer made on the condition that I / We will sign the enclosed integrity Agreement, which is an integral part of tender / bid documents, failing which I / We will stand disqualified from the tendering process. I / We acknowledge that **THE MAKING OF THE BID SHALL BE REGARDED AS AN UNCONDITIONAL AND ABSOLUTE ACCEPTANCE** of this condition of the NIT.

I / We confirm acceptance and compliance with the Integrity Agreement in letter and spirit and further agree that execution of the said Integrity Agreement shall be separate and distinct from the main contract, which will come into existence when tender/bid is finally accepted by IITD. I / We acknowledge and accept the duration of the Integrity Agreement, which shall be in the line with Article 1 of the enclosed Integrity Agreement.

I / We acknowledge that in the event of my/our failure to sign and accept the Integrity Agreement, while submitting the tender/bid, IITD shall have unqualified, absolute and unfettered right to disqualify the bidder /bidder and reject the tender/bid in accordance with terms and conditions of the tender/bid.

Yours faithfully,

(Duly authorized signatory of the Bidder)

BETWEEN

The Board of Governors, IIT Delhi, HauzKhas, New Delhi - 16 represented through **Executive Engineer (Civil &Elect.)**, IIT Delhi

....., (Hereinafter referred as the 'Principal/Owner',
(Address of Division)

'Principal/Owner', which expression shall unless repugnant to the meaning or context hereof include its successors and permitted assigns)

AND

.....
.....
(Name and Address of the Individual/firm/Company)

through
(Hereinafter referred
(Details of duly authorized signatory)

to as the "**Bidder/Contractor**" and which expression shall unless repugnant to the meaning or context hereof include its successors and permitted assigns)

Preamble

WHEREAS the Principal / Owner has floated the Tender (NIT No. **9440/62/EW/IITD/2018-19**) (hereinafter referred to as "**Tender/Bid**") and intends to award, under laid down organizational procedure, contract for **Supply, Installation, Testing & Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi.**

(Name of work) hereinafter referred to as the "**Contract**".

AND WHEREAS the Principal/Owner values full compliance with all relevant laws of the land, rules, regulations, economic use of resources and of fairness/transparency in its relation with its Bidder(s) and Contractor(s).AND WHEREAS to meet the purpose aforesaid both the parties have agreed to enter into this Integrity Agreement (hereinafter referred to as "**Integrity Pact**" or "**Pact**"), the terms and conditions of which shall also be read as integral part and parcel of the Tender/Bid documents and Contract between the parties.

NOW, THEREFORE, in consideration of mutual covenants contained in this Pact, the parties hereby agree as follows and this Pact witnesses as under:

C.....Nil I..... Nil O..... Nil

D'Man /J.E.

A.E.E , SS

E.E(E).

Article 1: Commitment of the Principal / Owner

- 1) The Principal/Owner commits itself to take all measures necessary to prevent corruption and to observe the following principles:
No employee of the Principal / Owner, personally or through any of his / her family members, will in connection with the Tender, or the execution of the Contract, demand, take a promise for or accept, for self or third person, any material or immaterial benefit which the person is not legally entitled to.
 - (a) The Principal/Owner will, during the Tender process, treat all Bidder(s) with equity and reason. The Principal/Owner will, in particular, before and during the Tender process, provide to all Bidder(s) the same information and will not provide to any Bidder(s) confidential / additional information through which the Bidder(s) could obtain an advantage in relation to the Tender process or the Contract execution.
 - (b) The Principal/Owner shall Endeavour to exclude from the Tender process any person, whose conduct in the past has been of biased nature.
- 2) If the Principal/Owner obtains information on the conduct of any of its employees which is a criminal offence under the Indian Penal code (IPC)/Prevention of Corruption Act, 1988 (PoC Act) or is in violation of the principles herein mentioned or if there be a substantive suspicion in this regard, the Principal/Owner will inform the Chief Vigilance Officer and in addition can also initiate disciplinary actions as per its internal laid down policies and procedures.
- 3) If the Principal/Owner obtains information on the conduct of any of its employees which is a criminal offence under the Indian Penal code (IPC)/Prevention of Corruption Act, 1988 (PoC Act) or is in violation of the principles herein mentioned or if there be a substantive suspicion in this regard, the Principal/Owner will inform the Chief Vigilance Officer and in addition can also initiate disciplinary actions as per its internal laid down policies and procedures.

Article 2: Commitment of the Bidder(s) / Contractor(s)

- 1) It is required that each Bidder/Contractor (including their respective officers, employees and agents) adhere to the highest ethical standards, and report to the Government / Department all suspected acts of **fraud or corruption or coercion or collusion** of which it has knowledge or becomes aware, during the tendering process and throughout the negotiation or award of a contract.
- 2) The Bidder(s)/Contractor(s) commits himself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the Tender process and during the Contract execution:
 - a) The Bidder(s)/Contractor(s) will not, directly or through any other person or firm, offer, promise or give to any of the Principal/Owner's employees involved in the Tender process or execution of the Contract or to any third person any material or other benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the Tender process or during the execution of the Contract.
 - b) The Bidder(s)/Contractor(s) will not enter with other Bidder(s) into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to cartelize in the bidding process.
 - c) The Bidder(s) / Contractor(s) will not commit any offence under the relevant IPC/PC Act. Further the Bidder(s) / Contractor(s) will not use improperly, (for the purpose of competition or personal gain), or pass on to others, any information or documents provided by the Principal / Owner as part of the business

C.....Nil

I..... Nil

O..... Nil

relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.

- d) The Bidder(s) / Contractor(s) of foreign origin shall disclose the names and addresses of agents / representatives in India, if any. Similarly Bidder(s) / Contractor(s) of Indian Nationality shall disclose names and addresses of foreign agents/representatives, if any. Either the Indian agent on behalf of the foreign principal or the foreign principal directly could bid in a tender but not both. Further, in cases where an agent participate in a tender on behalf of one manufacturer, he shall not be allowed to quote on behalf of another manufacturer along with the first manufacturer in a subsequent/parallel tender for the same item.
- e) The Bidder(s)/Contractor(s) will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the Contract.
- 3) The Bidder(s)/Contractor(s) will not instigate third persons to commit offences outlined above or be an accessory to such offences.
- 4) The Bidder(s)/Contractor(s) will not, directly or through any other person or firm indulge in fraudulent practices **means a willful misrepresentation or omission of facts or submission of fake/forged documents in order to induce public official to act in reliance thereof, with the purpose of obtaining unjust advantage by or causing damage to justified interest of others and/or to influence the procurement process to the detriment of the Government interests.**
- 5) The Bidder(s)/Contractor(s) will not, directly or through any other person or firm use Coercive Practices (means the act of obtaining something, compelling an action or influencing a decision through intimidation, threat or the use of force directly or indirectly, where potential or actual injury may befall upon a person, his/her reputation or property to influence their participation in the tendering process).

Article 3: Consequences of Breach

Without prejudice to any rights that may be available to the Principal /Owner under law or the Contract or its established policies and laid down procedures, the Principal/Owner shall have the following rights in case of breach of this Integrity Pact by the Bidder(s)/Contractor(s) and the Bidder/ Contractor accepts and undertakes to respect and uphold the Principal/Owner's absolute right:

- 1) If the Bidder(s)/Contractor(s), either before award or during execution of Contract has committed a transgression through a violation of Article 2 above or in any other form, such as to put his reliability or credibility in question, the Principal/Owner after giving 14 days notice to the contractor shall have powers to disqualify the Bidder(s)/Contractor(s) from the Tender process or terminate/determine the Contract, if already executed or exclude the Bidder/Contractor from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of transgression and determined by the Principal/Owner. **Such exclusion may be forever or for a limited period as decided by the Principal/Owner.**
- 2) **Forfeiture of EMD/Performance Guarantee/Security Deposit:** If the Principal/Owner has disqualified the Bidder(s) from the Tender process prior to the award of the Contract or terminated/determined the Contract or has accrued the right to terminate/determine the Contract according to Article 3(1), the Principal/Owner apart from exercising any legal rights that may have accrued to the Principal/Owner, may in its considered opinion forfeit the entire amount of Earnest Money Deposit, Performance Guarantee and Security Deposit of the Bidder/Contractor.
- 3) **Criminal Liability:** If the Principal/Owner obtains knowledge of conduct a Bidder or Contractor, or of an employee or a representative or an associate of a Bidder or Contractor which constitutes corruption within the meaning of IPC Act, or if the Principal / Owner has substantive suspicion in this regard, the Principal/Owner will inform the same to law enforcing agencies for further investigation.

C.....Nil

I..... Nil

O..... Nil

D'Man /J.E.

A.E.E , SS

E.E(E).

**Article 4: Previous Transgression**

- 1) The Bidder declares that no previous transgressions occurred in the last 5 years with any other Company in any country confirming to the anticorruption approach or with Central Government or State Government or any other Central/State Public Sector Enterprises in India that could justify his exclusion from the Tender process.
- 2) If the Bidder makes incorrect statement on this subject, he can be disqualified from the Tender process or action can be taken for banning of business dealings/ holiday listing of the Bidder/Contractor as deemed fit by the Principal/ Owner.
- 3) If the Bidder/Contractor can prove that he has resorted / recouped the damage caused by him and has installed a suitable corruption prevention system, the Principal/Owner may, at its own discretion, revoke the exclusion prematurely.

Article 5: Equal Treatment of all Bidder/Contractors/Subcontractors

- 1) The Bidder(s)/Contractor(s) undertake(s) to demand from all subcontractors a commitment in conformity with this Integrity Pact. The Bidder/Contractor shall be responsible for any violation(s) of the principles laid down in this agreement/Pact by any of its Sub-contractors/sub-vendors.
- 2) The Principal/Owner will enter into Pacts on identical terms as this one with all Bidder and Contractors.
- 3) The Principal/Owner will disqualify Bidder, who do not submit, the duly signed Pact between the Principal/Owner and the bidder, along with the Tender or violate its provisions at any stage of the Tender process, from the Tender process.

Article 6: Duration of the Pact

This Pact begins when both the parties have legally signed it. It expires for the Contractor/Vendor 6 months after the completion of SITC work under the contractor till the continuation of defect liability period (Total Ten years), whichever is more and for all other bidder, till the Contract has been awarded.

If any claim is made/lodged during the time, the same shall be binding and continue to be valid despite the lapse of this Pacts as specified above, unless it is discharged/determined by the Competent Authority of IITD.

Article 7: Other Provisions

- 1) This Pact is subject to Indian Law, place of performance and jurisdiction is the Head Quarters of the Division of the Principal/Owner, who has floated the Tender.
- 2) Changes and supplements need to be made in writing. Side agreements have not been made.
- 3) If the Contractor is a partnership or a consortium, this Pact must be signed by all the partners or by one or more partner holding power of attorney signed by all partners and consortium members. In case of a Company, the Pact must be signed by a representative duly authorized by Board Resolution.
- 4) Should one or several provisions of this Pact turn out to be invalid; the remainder of this Pact remains valid. In this case, the parties will strive to come to an agreement to their original intentions.
- 5) It is agreed term and condition that any dispute or difference arising between the parties with regard to the terms of this Integrity Agreement / Pact, any action taken by the Owner/Principal in accordance with this Integrity Agreement/ Pact or interpretation thereof shall not be subject to arbitration.

Article 8: LEGAL AND PRIOR RIGHTS

All rights and remedies of the parties hereto shall be in addition to all the other legal rights and remedies belonging to such parties under the Contract and/or law and the same shall be deemed to be cumulative and not alternative to such legal rights and remedies aforesaid. For the sake of brevity, both the Parties agree that this Integrity Pact will have precedence over the Tender/Contact documents with regard any of the provisions covered under this Integrity Pact.

INDIAN INSTITUTE OF TECHNOLOGY DELHI HAUZ KHAS, NEW DELHI - 110016

Percentage Rate Tender / Item Rate Tender & Contract for Works

Tender for the work of Supply, Installation, Testing& Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi.

(I) To be submitted online by **11.04.2019 upto 03:00 PM.**

(II) To be opened on **12.04.2019 at 03:00 PM** online,

e-TENDER

I / We have read and examined the Notice Inviting Tender, schedule, A, B, C, D, E & F, Specifications applicable, Drawings & Designs, General Rules and Directions, Conditions of Contract, Clauses of Contract, Special conditions, Schedule of Rate & other documents and Rules referred to in the conditions of contract and all other contents in the tender document for the work.

I / We hereby tender for the execution of the work specified for the Board of Governors, IIT Delhi within the time specified in Schedule 'F' viz., schedule of quantities and in accordance in all respect with the specifications, designs, drawing and instructions in writing referred to in Rule-1 of General Rules and Directions and in Clause 11 of the Conditions of contract and with such materials as are provided for, by, and in respect of accordance with, such conditions so far as applicable.

We agree to keep the tender open for ninety (90) days from the due date of its opening / ninety days from the date of opening of financial bid in case tenders are invited on 2/3 envelop system (**strike out as the case may be**) and not to make any modification in its terms and conditions.

A sum of **Rs. 9,64,842/-** is hereby deposited in IIT Delhi Revenue Account No. 10773572622as earnest money. If I / We, fail to furnish the prescribed performance guarantee within prescribed period I / We agree that the said The Board of Governors, IIT Delhi, Hauz Khas, New Delhi - 16 or his successors, in office shall without prejudice to any other right or remedy, be at liberty to forfeit the said earnest money absolutely. Further, if I / We fail to commence the work as specified, I / We agree that The Board of Governors, IIT Delhi, HauzKhas, New Delhi - 16 or the successors in office shall without prejudice to any other right or remedy available in law, be at liberty to forfeit the said earnest money and the performance guarantee absolutely, otherwise the said earnest money shall be retained by him towards security deposit to execute all the works referred to in the tender documents upon the terms and conditions contained or referred to those in excess of that limit at the rates to be determined in accordance with the provision contained in Clause 12.2 and 12.3 of the tender form. Further, I / We agree that in case of forfeiture of Earnest Money & Performance Guarantee as aforesaid I / We shall be debarred for participation in the re-tendering process of the work.

I / We undertake and confirm that eligible similar work(s) has/have not been got executed through another contractor on back to back basis. Further that, if such a violation comes to the notice of Department, then I / We shall be debarred for tendering in IIT Delhi in future forever. Also, if such a violation comes to the notice of Department before date of start of work, the Engineer-in-Charge shall be free to forfeit the entire amount of Earnest Money Deposit/Performance Guarantee.

I / We hereby declare that I / We shall treat the tender documents drawings and other records connected with the work as secret/confidential documents and shall not communicate information/derived there from to any person other than a person to whom I / We am/are authorized to communicate the same or use the information in any manner prejudicial to the safety of the State.

D'Man /J.E.

A.E.E , SS

E.E(E).

- 2.2.6 After obtaining clarification from all the tenders, the department will intimate the bidder whose technical cum commercial bids are acceptable.
- 2.2.7 The price bids of only those bidder shall be opened whose technical bids are found to be technically acceptable. The time and date of opening of price bid shall be fixed after the technical cum un priced commercial bid is accepted and intimated to them by post/Fax/e-mail.
- 2.2.8 The department reserves the right to reject any or all the price bids and call for fresh prices/tenders as the case may be without assigning any reason.

3.0 Terms of Payments

The following percentage of contract rates for the various items included in the contract shall be payable against the stage of work shown herein.

- 3.1 60% after initial inspection and delivery at site in good condition on pro-rata basis.
- 3.2 30% after completion of installation in all respects.
- 3.3 Balance 10% will be paid after testing, commissioning and handing over to the department for beneficial use.

3.4 Security Deposit

Security Deposit shall be deducted from each running bill and final bill to the extent of 5 % of the gross amount payable. The security deposit shall be released after 6 months of successful instantiation, commissioning and testing of the system.

3.5 Performance Bank Guarantee

The successful bidder shall submit an irrevocable performance guarantee of 5% of the tendered amount in addition to other deposit mentioned elsewhere in the contract for his proper performance of the contract agreement within 15 days of issue of letter of acceptance of tender. This guarantee shall be in the form of Demand Draft/Pay order of irrevocable bank guarantee bond of any schedule bank or the State Bank of India in the specified perform a of Government Security, fixed deposit receipt pledged in favour of Executive Engineer or as specified in the letter of acceptance of tender. The performance guarantee shall be initially valid up to the stipulated date of completion (SITC works) plus 60 days beyond. This bank guarantee shall be further renewed and kept valid till the recording of completion certificate for the SITC work and thereafter during warrantee period and CAMC period on annual renewal basis by the competent authority.

- 3.6 Income tax, GST, Labour Cess & other statutory deduction etc. shall be made at source as per the prevalent laws. The deduction of Security Deposit, Income Tax, etc., shall be done after calculation for the above due payment as per clauses 3.1 to 3.3 and net payment shall reduce accordingly.

4.0 Rates

- 4.1 The rates quoted by the bidder, shall be firm and inclusive of all taxes (including works GST & labour cess), duties, levies, etc. and all charges for packing forwarding, insurance, freight and delivery, installation, testing and commissioning etc. at site including temporary construction of storage, risks over head charges, general liabilities/ obligations and clearance from CFO. However, the fee if any, for the CDO inspections shall be borne by the Department.

C.....Nil I..... Nil O..... Nil

4.2 The contractor has to carry out maintenance as per manufacturer's standards for a period of 10 years (03 years comprehensive warranty + 07 years comprehensive annual maintenance contract from the date of successful installation, commissioning & testing of the system.

5.0 Completeness of tender

All sundry equipments, fitting, unit assemblies, accessories, hardware items, foundation bolts, termination lugs for electrical connections and all other items which are useful and necessary for efficient assembly and installation of equipment and components of the work shall be deemed to have been included in the tender irrespective of the fact whether such items are specially mentioned in the tender documents or not.

6.0 Storage and Custody of Material

The agency has to make his own arrangement for storage. No separate storage accommodation shall be provided by the department. Watch and ward of the storage and their safe custody shall be responsibility till the final taking over of the installation by the department.

7.0 Care of the Building

Care shall be taken by the contractor while handling and installing the various equipment and components of the work to avoid damage to the building. He shall be responsible for repairing all damages and restoring the same to their original finish at his cost. He shall also remove at his cost all unwanted and waste material arising out of the installation from the site of work.

8.0 Completion Period

The completion period indicated in the tender documents is for the entire work of planning, designing, approval of drawings etc, arrangement of materials & equipments, delivery at site including transportation, installation, testing, commissioning and handing over of the entire system to the satisfaction of the Engineer-in-charge.

9.0 Guarantee / warrantee:

9.1 All equipments shall be warranted for a period of 03years from the date of taking over the installation by the department against unsatisfactory performance and/ or breakdown due to defective design, workmanship or material. The equipment or component, or any part thereof, so found defective during guarantee period shall be forthwith repaired or replaced free of cost to the satisfaction of the Engineer-in- Charge. In case it is felt by the department that undue delay is being caused by the contractor in doing this, the same will be got done by the department at the risk and cost of the contractor. The decision of Engineer-in-Charge in this regard shall be final & binding on the contractor.

9.2 The bidder shall guarantee among other things, the following:

- (a) Quality, strength and performance of the material used as per manufacturer's standards.
- (b) Safe mechanical and electrical stress on all part under all specified conditions of operation.
- (c) Satisfactory operation during the maintenance period.

10.0 Water supply / Power Supply

Water & power supply shall be made available by the department at one point in campus free of cost. Further, the arrangement for tapping power / water supply from this point shall be made by the contractor.

O..... Nil

11.0 Acceptable makes of various equipments

The acceptable makes of various equipments/ components / accessories have been indicated in "Acceptable Makes" indicated in the list attached. The bidder shall work out the cost of the offer on this basis. Alternate makes are not acceptable.

12.0 Data Manual and Drawing to be furnished by the bidder:

12.1 With tender: The bidder shall furnish along with the tender, detailed technical literature, pamphlets and performance data for appraisal and evaluation of the offer.

12.2 After award of work: The successful bidder be required to submit the following drawings within 15 days of award of work of approval before commencement of installation.

- (a) General arrangement drawing for the installation of all equipments like Detectors, R.I., C&I Panel etc. in the building with complete dimensions.
- (b) Any other drawing necessary for the job.

13.0 The successful tender should furnish well in advance three copies of detailed instruction and manuals of manufacturer's for all items of equipments regarding installation , adjustment operation and maintenance including preventative maintenance and troubleshooting together with all the relevant data sheets, spare parts catalogue etc. all in triplicate.

14.0 Extent of Work

14.1 The work shall comprises of entire labour including supervision and all material necessary to make a complete installation and such tests and adjustment and commissioning as may be required by the department. The term complete installation shall not only mean major items of the plant and equipments covered by the specification but all incidental sundry components necessary for complete execution and satisfactory performance of installation with all layout charts whether or not those have been mentioned in details in the tender documents in connection with this contract as this is a turnkey job.

14.2 In addition to supply, installation, testing and commissioning of FAS/ AFAS including intelligent addressable FAS equipments, following works shall be deemed to be included with the scope of work to be executed by the bidder as this is a turnkey job-

- (a) Minor building works necessary for installation of equipments, foundation making of opening in walls or in floors and restoring them to their original condition I finish and necessary grouting etc. as required.
- (b) All supports for cable and MS Channel for erection as are necessary.
- (c) Getting CFO inspection done and obtaining clearance. However, necessary fees for inspection shall be borne by the department.

15.0 Exclusion and work to be done by other agencies:

The following shall be excluded from the scope of work:

- (a) Major dismantling of any existing building work.

16.0 Inspection and Testing

C.....Nil I..... Nil O..... Nil

- 16.1** The material and equipments shall be offered for initial inspection at manufacturer's works. The contractor will intimate the date of testing of equipments at the manufacturer's work before dispatch. The successful bidder shall give advance notice of minimum two weeks regarding the dates proposed for such test to the department representative to facilitate his presence during testing. The Engineer-in-charge may witness such testing. The cost of the Engineer visit to the factory will be borne by the Department. Equipments will be inspected at the manufacturer/ Authorized Dealers premises before dispatch to the site by the contractor. Nothing extra shall be paid for initial inspection/testing at Manufacture Works.
- 16.2** Copies of all documents of routine and type test certificates of the equipment carried out at the manufactures premises shall be furnished to the Engineer-in- charge and consignee.

17.0 VALIDITY

Tenders shall be valid for acceptance for a period of **ninety days** from the date of opening.

18.0 COMPLIANCE WITH REGULATIONS AND INDIAN STANDARDS:

- 18.1** All works shall be carried out in accordance with relevant regulation both statutory and those specified by the Indian Standards related to the works covered by this specification in particular, the equipment and installation will comply with the following:
- (i) Factories Act.
 - (ii) Indian Electricity Rules
 - (iii) B.I.S.& other standards as applicable
 - (iv) Workmen's compensation Act.
 - (v) Statutory norms prescribed by local bodies like fire department, CEA, Power Supply Co. etc.
- 18.2** After completion of the installation the same shall be offered for inspection by the representatives of the C.F.O. The contractor will extend all help including test facilities to the representatives of CFO. The observation of CFO will be attended by the contractor.
- 18.3** Nothing in this specification shall be construed to relieve the successful tender of his responsibility for the design, manufacture and installation of the equipment with all accessories in accordance with currently applicable statutory regulations and safety codes.
- 18.4** Successful bidder shall arrange for compliance with statutory provisions of safety regulations and departmental requirements of safety codes in respect of labour employed on the work by the bidder. Failure to provide such safety requirements would make the bidder liable for penalty of Rs.500/- for each default. In addition, the department will be at liberty to make arrangement for safety requirements at the cost of bidder and recover the cost thereof from him.

19.0 INDEMNITY

The successful bidder shall at all times indemnify the department, consequent on this works contract. The successful bidder shall be liable, in accordance with the Indian Law and Regulations for any accident occurring due to any cause and the contractor shall be responsible for any accident or damage incurred or claims arising there from during the period of erection, construction and putting into operation the equipments and ancillary equipment under the supervision of the successful bidder in so far as the latter is responsible. The successful

bidder shall also provide all insurance including third party insurance as may be necessary to cover the risk. No extra payment would be made to the successful bidder on account of the above.

20.0 Erection Tools:

No tools and tackles either for unloading or for shifting the equipments for erection purposes would be made available by the department .The successful tender shall make his arrangement for all these facilities

21.0 Cooperation with Other Agencies:

The successful bidder shall co-ordinate with other contactors and agencies engages in the construction of building if any, and exchange freely all technical information so as to make the execution of this work / contract smooth. No remuneration should be claimed from the department for such technical cooperation. If any unreasonable hindrance is caused to other agencies and any completed portion of the work has to be dismantles and re-dune for want or cooperation and coordination by the bidder during the course of work, such expenditure incurred will be recovered from the successful bidder if the restoration work to the original condition or specification of the dismantled portion of work was not under taken by the bidder himself.

22.0 Mobilization Advance:

No mobilization advance shall be paid for this work.

23.0 Insurance and Storage:

All consignments are to be duly insured upto the destination from warehouse at the cost of the contractor. The insurance covers shall be valid till the equipment is handed over duly installed, tested and commissioned.

24.0 Verification of Correctness of equipments at destination:

The contractor shall have to produce all the relevant records to certify that the genuine equipments from the manufacturers has been supplied and erected.

25.0 Painting

This shall include cost of painting of the entire installation. The major equipments like C&I Panel, cable trays etc. shall be factory final finish painted. The agency shall be required to do only touching to the damages caused to the painting during transportation, handling & installation at site, if there is no major damage to the painting. However hangers, supports etc. of cable tray etc. shall be painted with required shade including painting with two coats of anti corrosive primer paint at site.

26.0 Training :

The scope of work includes the on job technical training of two persons of department at site. Nothing extra shall be payable on this account.

27.0 Maintenance:

Sufficient trained and experienced staff shall be made available to meet any exigency of work during the Warrantee/CAMC period of Ten years from the handing over of the installation. The qualification of the service Engineer to be deputed and stationed at IIT Delhi premises for the Maintenance of CCTV system besides others during warrantee period/CAMC period will be A Graduate/Diploma Engineer having appropriate degree from reputed Institute with relevant experience in CCTV surveillance related works.

O..... Nil

28.0 Interpreting Specification:

In interpreting the specification, the following order of decreasing importance shall be followed in case of contradictions:

- (a) Schedule of quantities
- (b) Technical Specification compliance
- (c) Commercial compliance
- (d) Seamless integration compliance
- (e) Drawing (if any)
- (f) General Specification
- (g) Relevant BIS or other international code in case BIS code is not available.

29.0 Pre-Bid Conference

It is proposed to hold a pre-bid conference with the prospective tenderers to enable them to seek clarification on the technical specification and in tender documents that they may consider necessary for submission of tender (technical bid & price bid). All clarification sought for will be finalized during the pre-bid conference and confirmation minutes for the pre-bid conference will be uploaded in website as corrigendum. The date and time of pre-bid conference is mentioned in the NIT. It is upto the prospective tenderers to take part in the pre-bid conference. Non-attendance of pre-bid conference does not debar the prospective tenderers from participating and submission of tender. No separate pre-bid conference will be conducted for the firms who do not attend the pre bid conference on the date and time fixed for the purpose.

29.0	Applicable Law: The place of jurisdiction would be New Delhi (Delhi) INDIA.
30.0	Right to Use Defective Goods If after delivery, acceptance and installation and within the guarantee and warranty period, the operation or use of the goods proves to be unsatisfactory, the Institute shall have the right to continue to operate or use such goods until rectifications of defects, errors or omissions by repair or by partial or complete replacement is made without interfering with the Purchaser's operation.
31.0	Warranty: (i) Warranty period shall be (as stated at page #2 of this tender) from date of installation of Goods at the IITD site of installation. The Contractor shall, in addition, comply with the performance and/or consumption guarantees specified under the contract. If for reasons attributable to the Contractor, these guarantees are not attained in whole or in part, the Supplier shall at its discretion make such changes, modifications, and/or additions to the Goods or any part thereof as may be necessary in order to attain the contractual guarantees specified in the Contract at its own cost and expense and to carry out further performance tests. The warranty should be comprehensive on site. (ii) The Institute shall promptly notify the Contractor in writing of any claims arising under this warranty. Upon receipt of such notice, the Contractor shall immediately within in 02 days arrange to repair or replace the defective goods or parts thereof free of cost at the ultimate destination. The Contractor shall take over the replaced parts/goods at the time of their replacement. No claim whatsoever shall lie on the Institute for the replaced parts/goods thereafter. The period for correction of defects in the warranty period is 02 days. If the Contractor having been notified fails to remedy the defects within 02 days, the Institute may proceed to take such remedial action as may be necessary, at the supplier's risk and expenses and without prejudice to any other rights, which the purchase/Institute may have against the Contractor under the contract. (iii) The warranty period should be clearly mentioned. The maintenance charges (AMC) under different schemes after the expiry of the warranty should also be mentioned. The comprehensive warranty will commence from the date of the satisfactory installation/commissioning of the equipment against the defect of any manufacturing,

	<p>workmanship and poor quality of the components.</p> <p>(iv) Following items are covered during warrantee period under the scope of Comprehensive maintenance, Break down maintenance, Preventive maintenance i/c daily, monthly, quarterly and yearly maintenance of installation as per details furnished in the Tender document, shall be carried out. Comprehensive maintenance also includes supply/ replacement and repair of Units spares as required. No extra payment will be made for supply/ repair/ replacement of spare units/ components.</p> <p>(v) The comprehensive maintenance of complete Supply, Installation, Testing & Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi during warrantee period be carried out by providing at least one Service Engineer stationed at IIT Delhi all the time besides others during office hours (9AM to 6PM) on 6 days of week basis.</p>
32.0	After the warranty period is over, Comprehensive Annual Maintenance Contract up to next Seven years should be started. The CAMC charges will not be included in computing the total cost of the equipment.
33.0	Terms of payments of AMC : The payments of Annual Maintenance Contract will be made on quarterly basis after satisfactory completion of each quarter.
34.0	User list: Brochure detailing technical specifications and performance, list of industrial and educational establishments where the items enquired have been supplied must be provided.
35.0	Defective Equipment: If any of the equipment supplied by the Bidder is found to be substandard, refurbished, un-merchantable or not in accordance with the description/specification or otherwise faulty, the committee will have the right to reject the equipment or its part. The prices of such equipment shall be refunded by the Bidder with 18% interest if such payments for such equipment have already been made. All damaged or unapproved goods shall be returned at suppliers cost and risk and the incidental expenses incurred thereon shall be recovered from the supplier. Defective part in equipment, if found before installation and/or during warranty period, shall be replaced within 45 days on receipt of the intimation from this office at the cost and risk of supplier including all other charges. In case supplier fails to replace above item as per above terms & conditions, IIT Delhi may consider "Banning" the supplier.
36.0	Downtime: During the warranty period and CAMC period not more than 5% downtime will be permissible. For every day exceeding permissible downtime, penalty of 1/365 of the 5% FOB value will be imposed. Downtime will be counted from the date and time of the filing of complaint with in the business hours.
37.0	Disputes and Jurisdiction: Any legal disputes arising out of any breach of contract pertaining to this tender shall be settled in the court of competent jurisdiction located within New Delhi.
38.0	Compliance certificate: This certificate must be provided indicating conformity to the technical specifications.

Additional Conditions on CAMC

COMPREHENSIVE ANNUAL MAINTENANCE OF Supply, Installation, Testing & Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi:

After completion of Warrantee period, a Supplementary Agreement will be drawn as per provision in CPWD works manual 2014 at para 23.6 between the successful contractor and IITD. The terms and conditions of the Supplementary Agreement will be as follows:

SCOPE OF WORK

Following items are covered under the scope of Comprehensive maintenance, Break down maintenance, Preventive maintenance i/c daily, monthly, quarterly and yearly maintenance of installation as per details furnished here under, shall be carried out. Comprehensive maintenance also includes supply/ replacement and repair of Units spares as required. No extra payment will be made for supply/ repair/ replacement of spare units/ components. In the years of warranty period, the cost of comprehensive maintenance is deemed to have been included for which no extra payment shall be made. Bidder has to quote the rates for comprehensive maintenance for the subsequent year's 4th year to 10th year inclusive of spare parts equipments as stated above during the warrantee period, No extra payment will be made for supply/ repair/ replacement of spare units/ component of complete CCTV system, if a system or part of the system remains unattended, necessary recovery will be made from his bill/deposit.

i) Comprehensive annual maintenance of complete Supply, Installation, Testing & Commissioning of IP Network low light IR outdoor/indoor cameras in campus and different buildings of IIT Delhi be carried out by providing at least one Service Engineer stationed at IIT Delhi all the time besides others during office hours (9AM to 6PM) on 6 days of week basis.

ii) Any other item/ activities associated with proper functioning of comprehensive maintenance of complete CCTV system deemed to have been included in the scope of work.

iii) The maintenance work shall be got carried through the manufacturer/OEM appointed personnel only.

(iv) The payment in respect of AMC shall be made in quarterly installments after rendering of service/ maintenance as per scope of the contract.

(iv) In the event of failure to provide satisfactory maintenance support, the Institute shall be at liberty to forfeit a minimum 3 months payment from AMC charges. The decision of the Engineer in Charge in this regard shall be final & binding on the bidder.

(v) If the dissatisfaction in maintenance support continues beyond two consecutive quarters, the Institute shall proceed against the bidder for forfeiture of the performance security and be at liberty to appoint another agency for Annual Maintenance Contract.

(vi) The bidder shall provide complete technical support on (24x7) basis throughout the year for the CCTV Cameras and other equipments on call basis by sending highly skilled technical persons and also to appoint one service Engineer stationed at IITD premises, to look after the overall maintenance related to software and hardware of the complete CCTV system.

7. Switch

S.No.	24 Port Switch (1)	Compliance (Only Yes or No)	Deviation if any should be clearly mentioned
1	Switch should be 1RU with minimum 24 no. of Multi gigabits ports with min 2 x 10G SFP+ ports.		
2	The uplink port should be upgradable to 2 x 40G QSFP ports		
3	Switching system shall have minimum 640 Gbps of switching fabric and minimum 450 Mbps of forwarding rate		
4	Switch should have minimum 480 Gbps of stacking bandwidth		

C.....Nil

I..... Nil

O..... Nil

5	Switch should have hot swappable 1:1 redundant internal power supply, Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3az, 802.3af, 802.3at		
6	Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security, IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping, IPv6 applications and IPv6 First Hop Security		
	Switch should be IPv6 Certified/IPv6 logo ready.		
	12 PORT SWITCH (2)	Compliance (Only Yes or No)	
1	Switch should be 1RU with minimum 12 no. of Multi gigabits ports with min 2 x 10G SFP+ ports.		
2	The uplink port shall have minimum 68 Gbps of switching fabric and minimum 50 Mpps of forwarding rate.		
3	Switch should have minimum 480 Gbps of stacking bandwidth, Switch should have hot swappable 1:1 redundant internal power supply.		
4	Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3az, 802.3af, 802.3at.		
5	Switch should support port security, DHCP snooping,		

C.....Nil

I..... Nil

O..... Nil

	Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security, IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping, IPv6 applications and IPv6 First Hop Security.		
6	Switch should be IPv6 Certified/IPv6 logo ready.		
	8 PORT SWITCH (2)	Compliance (Only Yes or No)	
1	8 Port managed PoE Switch with 2 SFP port, minimum 8 nos. 10/100/1000 Base-T ports with PoE+ capability and minimum 60W of PoE Power and additional 2 nos.		
2	Combo uplink ports loaded with 2 nos. of SMF modules Shall have minimum 20 Gbps of switching fabric and 14.88Mpps of forwarding rate.		
3	Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3az, 802.3af, 802.3at.		
4	Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security.		
5	IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping, IPv6 applications and IPv6 First Hop Security.		
6	Switch should be IPv6 Certified/IPv6 logo ready.		
	24 PORT SWITCH - CISCO C9200L-24P-4G-E - (4)	Compliance (Only Yes or No)	
1	Switch shall have minimum 24 nos. 10/100/1000 Base-T ports with PoE+ capability and		

C.....Nil

I..... Nil

O..... Nil

	minimum 370W of PoE Power and additional 4 nos. of SFP uplink ports loaded with 2 nos. of SMF modules.		
2	Shall have minimum 56 Gbps of switching fabric and 80 Mpps of forwarding rate.		
3	Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3af, 802.3at.		
4	Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard IPv6 QoS and IPv6 ACL.		
	4 PORT INDUSTRIAL GRADE SWITCH (5)	Compliance (Only Yes or No)	
1	4 Port industrial Grade Network Switch shall have minimum 4 nos.		
2	10/100Base-T ports with PoE+ capability and minimum 60W of PoE Power and additional 2 nos. SFP uplink ports loaded with SMF Modules.		
3	Shall have be IP30 rated and shall work on up to 60 deg C temp. in a sealed enclosure.		
4	Switch should be DIN Rail mountable. Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3af, 802.3at.		
5	Switch should support port security, DHCP snooping, IGMP Snooping, BPDU Guard and spanning tree root guard.		
6	Switch shall be IEC 60068-2-6, IEC 60068-2-27, IEC 60068-2-47, IEC 60068-2-64 compliant.		

C.....Nil

I..... Nil

O..... Nil

	Switch shall be IEC 61000-4-5 and NEMA TS-2 compliant.		
--	--------------------------------------------------------	--	--

8 - VMS

VMS	1. Make/Model. ----- 2. Product S. No. ----- (if any) (Please furnish details)		
S.NO.	System Specification	Compliance Y/N	Deviation if any should be clearly highlighted
1	System Architecture		
1.01	The VMS architecture should comprise of centralised or decentralised architecture. The VMS should have system components such as Management Server to manage the system, Recorder or Media Server to stream and store the video feeds from the cameras and Database Server to store meta data information.		
1.02	The VMS should support single site or multi-site deployment scenarios. The VMS should have capability to aggregate videos from multiple sites to the central site for recording or monitoring. The VMS should also have the capability to aggregate the system alerts such as video analytics, user created alerts and system health alerts to the central site.		
1.03	The VMS should have been developed and built on operating system agnostic platform which can run on multiple operating systems environments such as Microsoft Windows, Linux and Unix.		
1.04	The VMS should support single or multiple recorder server deployments. The proposed VMS should support unlimited IP and Analog cameras by augmenting the computing and storage hardware. The proposed VMS should support unlimited number of VMS clients.		
1,05	The VMS architecture should support automatic assignment of the available cameras on the network to the available Recorder Servers based on the recorder server's resources such as number of cores, available RAM and resource utilisation. The VMS should support dynamic load balancing. No recording server should be kept idle. This should happen without manual intervention.		
1.06	VMS should support open source DBMS, e.g., Postgre SQL, My SQL besides MS SQL and Oracle. The VMS should be		

C.....Nil I..... Nil O..... Nil

	capable of supporting SQL or No SQL databases.		
1.07	The VMS should support redundancy at each level to avoid single point of failure. The redundancy should be built in to the platform and should offer failover support for Management Servers, Media / Recording Servers, Database Servers and Storage Medium.		
1.08	· VMS should support Failover against temporary disconnection of DBMS Service, without any loss of camera video. As soon as the DBMS service resumes, all data should automatically be synchronised to the Database.		
1.09	· Once configured, the Video Management System should not require reconfiguration of any kind when any server passes through a power Off-On cycle.		
1.10	· Each media server should have its own storage configuration. It should be possible to select storage location/s out of all available storage locations (including Local, DAS, NAS, and SAN storage) for each media server. The media server should support load balancing and fail-safe operation by distributing the video data on all selected storage locations. So, in case of failure of any storage location, the entire video data is not lost.		
1.11	· In case of the failure of the Recording Server, the VMS should automatically assign the cameras on the failed recording server to other operational recording servers on the network. Manual intervention of any kind should not be required in such a case. When the failed server becomes active again, the cameras should be automatically allocated to the recorder server again without manual intervention. Deployment of a dedicated redundant server for this purpose should not be required.		
1.12	· The VMS should have published APIs to interface with external systems such as Command and Control Application, Incident Management System, etc.		
2	General VMS Functions		
2.01	· VMS should be able to detect ONVIF compliant IP cameras automatically.		
2.02	· The VMS should have ONVIF Profile S & G compliance.		
2.03	· The VMS should support H.265+, H.265, H.264, MJPEG CODECs.		
2.04	· The VMS should offer desktop client and web client.		
3	Storage & Recording Functions		

3.01	<ul style="list-style-type: none"> The VMS should allow creation of customised recording profile. Such a profile should allow the operator to select multiple available camera streams. It should be possible to assign the recording profile to an individual camera or a group of cameras or all cameras. 		
3.02	<ul style="list-style-type: none"> The VMS should support ONVIF Profile G. The VMS should intelligently synchronise the edge recording on the camera with the central recording in case the camera loses the network connection. 		
3,03	<ul style="list-style-type: none"> The VMS should allow selection of single or group or all cameras for edge recording. 		
3.04	<ul style="list-style-type: none"> The VMS should allow the user to mark certain period of video recording as “critical data”. Such critical data should be retained by the system irrespective of the camera recording storage configuration. 		
3.05	<ul style="list-style-type: none"> VMS should allow the users to download multiple segments of the video from single or multiple cameras from the archive with an option to tag each downloaded segment with text messages. The Video segments should be downloaded in a single folder along with excel spreadsheet where details of each of the video segments are listed as hyperlinks to the exported video. 		
3.06	<ul style="list-style-type: none"> It should be possible to encrypt the exported video with password protection. The system should keep a record of such exported videos as audit trail. 		
3.07	<ul style="list-style-type: none"> It should be possible to create recording schedules on the fly, and assign any schedule to any camera, any group of camera or to all the cameras any time. The recording should be controlled on hourly basis. It should be possible to manage recording on per camera basis, each with different video settings (e.g. format, frame rate and resolution). 		
3.08	<ul style="list-style-type: none"> It should be possible to efficiently handle the storage by handling the recorded video in such a way that video is retained over a long period of time by decaying the video quality over a period of time without altogether deleting or overwriting the archived video. In addition, the facility should be provided to keep a high resolution image embedded inside the archived video for every segment of video (say 1 or 2 high resolution snap in 25fps video) so that such snaps could become useful later for investigation and at the same time video is also retained though at lower resolution. 		
4	User Management & Administration		

4.01	<ul style="list-style-type: none">The VMS should support multiple directory access protocols such as Microsoft Active Directory or Lightweight Directory Access Protocol (LDAP).		
4.02	<ul style="list-style-type: none">The VMS should have a feature to restrict a user to a particular hardware workstation.		
4.03	<ul style="list-style-type: none">It should be possible to send messages o a particular user from the Administrator login. In case the user is offline or not logged in, the message should be delivered after the user logs in to the system.		
4.04	<ul style="list-style-type: none">VMS should allow the user with Administrator privilege to import any Operator's screen on his/her desktop to watch the operator's activity on-line.		
5	VMS Client and Operator Functions		
5.01	<ul style="list-style-type: none">The VMS should allow multi-monitor support for the client workstation.		
5.02	<ul style="list-style-type: none">The VMS should store available screen layouts for each login user. The stored screen layout should be available on any of the operator workstations once the user logs-in.		
5.03	<ul style="list-style-type: none">It should be possible to select cameras for synchronised and simultaneous archive viewing. It should be possible to record the videos being rendered from these cameras into a single video. This operation should be possible in a matrix recording or stitched recording options.		
5.04	<ul style="list-style-type: none">The VMS desktop client should allow configuration of Video Management Server, Video Recorder Servers, Storage and Video Analytics. There should not be any requirement of logging in to the individual components for any configuration. It should be possible to create Video Analytics rules from the same desktop client.		
5.05	<ul style="list-style-type: none">The VMS should allow creation of customised, layered maps using standard picture files and it should be possible to drag and drop the cameras on the map for easy navigation based on the location on the map. It should be possible to select any camera or group of cameras on the map for live viewing or archive viewing.		
5.06	<ul style="list-style-type: none">The VMS should show event notification from the cameras on the map itself. The operator should be able to click on the event notification of a particular camera on the map and the VMS should open the event window on the operator screen.		
5.07	<ul style="list-style-type: none">VMS should integrate with open source and free maps such as Google Maps.		

5.08	<ul style="list-style-type: none">· It should be possible to create a group of relevant cameras for simultaneous viewing. So, in case of an alert in one camera, the VMS should open the event window of the camera and also show live video from other cameras in the group in a synchronised manner. It should also be possible for the operator to view the archive video from all the open cameras simultaneously, in a time synchronised manner.		
5.09	<ul style="list-style-type: none">· The system should have PTZ camera control options within the matrix view of all the cameras. The PTZ controls should only be visible for PTZ camera/s. The operator should be able to control the PTZ camera within the matrix view itself.		
5.10	<ul style="list-style-type: none">· The system should retain the VMS client screen state (including Video Analytics alert window, message window, Video Matrix, etc.) in case of an accidental shut down of the machine and should offer the exact same screen to the operator upon logging back into the system.		
5.11	<ul style="list-style-type: none">· The VMS should allow sending the event alert to the designated person or a group of designated persons through SMS or Email.		
5.12	<ul style="list-style-type: none">· VMS should allow transferring the event alert to an administrator or another user registered in the system.		
5.13	<ul style="list-style-type: none">· The VMS should allow monitoring of archive video of the selected camera under categories such as events, motion or continuous recording. The VMS should also show a report of cameras indicating recording status for the selected duration, critical video data and Incident Video data.		
5.14	<ul style="list-style-type: none">· VMS should allow camera clustering based on Locations as well as Groups independently.		
5.15	<ul style="list-style-type: none">· Each operator should be able to monitor one or several clusters of camera		
5.16	<ul style="list-style-type: none">· VMS should be able to prevent an operator from viewing/managing one or several clusters		
5.17	<ul style="list-style-type: none">· VMS should allow managing at least 100 clusters of camera. Quantity of cameras per cluster should be unlimited.		
5.18	<ul style="list-style-type: none">· VMS should allow assigning each camera to one or several clusters simultaneously.		
5.19	<ul style="list-style-type: none">· The total hard drive space used to store the camera's recorded data should be displayed. The storage media could be the local hard drive or SAN / NAS storage.		

5.20	<ul style="list-style-type: none">· The Client Viewer should support real time simultaneous view of 1, 2x2, 3x3, 4x4, 1+5, 1+7, 1+11, 8x8 and 10 x 10 multi-screens video display and a simple click should allow enlarging any of the multi-screen displays into a full screen display. On clicking again on the enlarged display, multi-screen display should reappear.		
5.21	<ul style="list-style-type: none">· The Client viewer should have the feature to synchronize replay of selected cameras/all cameras in the view panel.		
5.22	<ul style="list-style-type: none">· The Client Viewer should allow digital zooming on live view as well as on replay view on Fixed as well as PTZ Cameras. The VMS should also allow creating virtual camera views and monitor them separately.		
5.23	<ul style="list-style-type: none">· The Client Viewer should support the use of keyboard shortcuts for control of standard features.		
5.24	<ul style="list-style-type: none">· From the Client Viewer it should be possible to:		
5.25	<ul style="list-style-type: none">· Run instant replay of any camera on display		
5.26	<ul style="list-style-type: none">· Bookmark of any important event to facilitate search and retrieval		
5.27	<ul style="list-style-type: none">· Bookmark the display layout with selected distribution of cameras across the panel		
5.28	<ul style="list-style-type: none">· Drag a line on the Sitemap touching one or more cameras and the cameras touched by the line should appear for live view on the screen.		
5.29	<ul style="list-style-type: none">· Activate manually triggered events.		
5.30	<ul style="list-style-type: none">· Use sound notifications for attracting attention to detected motion or events.		
5.31	<ul style="list-style-type: none">· Get quick overview of sequences with detected motion.		
5.32	<ul style="list-style-type: none">· Get quick overviews of detected alerts or events.		
5.33	<ul style="list-style-type: none">· Quickly search selected areas of video recording for motion		
5.34	<ul style="list-style-type: none">· Skip gaps during playback of recordings.		
5.35	<ul style="list-style-type: none">· Configure and use several different joysticks.		
5.36	<ul style="list-style-type: none">· Print images, with optional comments.		
5.37	<ul style="list-style-type: none">· Copy images for subsequent pasting into word processors, email, etc.		
5.38	<ul style="list-style-type: none">· Export recording (e.g. for use as evidence) in AVI, MP4 and JPEG formats		
5.39	<ul style="list-style-type: none">· The Client Viewer should have the capability to receive multicast streams if a preset number of clients are requesting the same live view camera. The Operator should have the option to configure the system to always receive unicast streams at the discretion of the system administrator. The system should have the capability to detect if the network becomes unreliable and to automatically switch to unicast to ensure that the		

C.....Nil

I..... Nil

O..... Nil

	operator is able to receive video.		
5.40	· The operator should have the ability to use digital zoom where the zooming is performed in the image only on any number of cameras simultaneously. This functionality should be the default for fixed cameras. The use of digital zoom should not affect recording or other users.		
5.41	· The Client Viewer should integrate the following viewing capabilities:		
5.42	· Matrix Switching: The Client viewer should allow switching amongst multiple selected bookmarked display layouts with pre-determined time duration for each matrix view.		
5.43	· Matrix Window – A window that is used to display cameras on demand or by an external event		
5.44	· Video Stitching - The VMS should provide the ability for real time video calibration tools providing stitched video view of areas that are covered by multiple cameras as a single image. The video stitching software module should provide the ability to “stitch” / integrate up to eight (8) cameras in any direction, horizontal, vertical and overlay to provide a single overlaid view of the selected cameras. It should also be possible to record such stitched view as one single video file for later retrieval.		
5.45	· The Client Viewer should display a time line for each camera to represent recorded video sequences. The Client Viewer should indicate whether the video was recorded due to motion activation or recorded without motion or pre and post alarm video. The time line band should be highlighted based on the camera view selected in the display. The Client Viewer should allow video sequences for the displayed cameras to be reviewed simultaneously.		
5.46	· The Map should be a part of the Client viewer application and VMS should allow detaching the map and showing it separately on another monitor connected to the Client viewer machine (in case of Multi-monitor workstation).		
6	Health Monitoring & Audit Trail		
6.01	· The VMS desktop client should show vital system parameters for components such as Database Server, Media Servers, Local Workstation and Storage System (all		

C.....Nil

I..... Nil

O..... Nil

	available storages). The client should show the parameters such as CPU Core Usage, RAM Utilisation and Storage Utilisation.		
6.02	· The VMS client should have automatic or manual selection of hardware accelerator decoder or software accelerator decoder for smooth media rendering based on the available resources.		
6.03	· The VMS should have reports such as camera uptime availability, camera recording percentage, recording status, critical events, incident video, etc.		
6.04	· The System health status like Server failure, Camera Disconnection, Storage Full Indication, etc. should always be displayed within the GUI all the time.		
6.05	· VMS should maintain a continuous log of Server Status Messages, Camera Connectivity, Storage Status, Recording ON/OFF, User Activity Logs, etc. which should be accessed from the workstations using different filters.		
6.06	· The VMS should allow for continuous monitoring of the operational status and event-triggered alarms from servers, cameras and other devices. The health monitoring module should provide a real-time overview of alarm status or technical problems while allowing for immediate visual verification and troubleshooting.		
6.07	· The system should give full audit trail of the user activities in the system.		
6.08	· The system log should be searchable by Level, Source and Event Type.		
6.09	· The Audit Log should record remote user activity (searchable by User name, Audit ID, Source and Location)		
6.10	· The Alert Log should record alerts triggered by rules (searchable by Alert type, Source and Event type)		
6.11	· The Event Log should record event-related information (searchable by Service name, Source and Event type)		
6.12	· The Rule Log should record rules in which the Make new <log entry> action been specified (searchable by Service name, Source, Event type and Rule name)		
6.13	· The VMS should allow monitoring of the desktop screen activity of a user from the Administrator user console. This feature should replicate the entire user desktop and not just the VMS application window. This feature is required for audit of the operators. It should also be possible to monitor desktops of multiple users and record the entire activity to a file for any duration required.

Annexure -B**Commercial compliance Sheet:**

S.No.	Item	Description	Compliance- Yes/No
1.	Legal Entity	The bidder should be a company registered under Indian Companies Act, 1956 or a partnership firm registered under Indian Partnership Act, 1932. (Copy of certificates of Incorporation/ Registration be submitted)	
2.	Financial: Turnover	Average Annual Turnover of the bidder during the last three financial years, i.e., 2016-2017, 2017-2018 and 2018-2019 (as per the last published audited balance sheets), should be 100 percent estimated value of the project. The bidder should have not incurred loss in any of the last 3 financial years. (CA Certificate with CA's Registration Number/ Seal be submitted.)	
3.	Financial: Reference Projects	- The bidder must have completed similar SITC works of CCTV during last Seven years of minimum value not less than 80% of estimated value against one single work or two works of similar nature each costing not less than 60% of estimated value or three similar works each costing not less than 40% of estimated value. (Completion Certificate be submitted)	
4.	Technical Capability	The bidder must have successfully completed at least one video surveillance project having minimum 170 cameras in any one project in Govt. Buildings/ Metro/Airport/ IT Infra/City surveillance in India during last 5 financial years. The bidder should be in the business of supply, installation, testing, commissioning & maintenance of CCTV systems for at least last 7 years. (Completion Certificate from the Client be submitted)	
5.	Tax registration and clearance	The lead bidder should have a registered number of GST PAN number. (Copies of relevant certificates of registration GST and PAN number be submitted)	
6.	ISO Certifications	The bidder must possess at the time of bidding, a valid ISO9001 or higher and ISO27001 Certificate. (Copy of a valid certificate be submitted)	
7.	Service Setup	The bidder must have local office or service setup in within 20 KMs of the Project location to meet the SLA's. (Copy of relevant proof be submitted)	

C.....Nil

I..... Nil

O..... Nil

8.	OEM for CCTV	OEM has to authorize bidder to participate in tender through authorization letter, also known as Manufacturer's Authorization Form (MAF). The MAF should have to be on OEM's original letter head, duly ink signed and stamped on bond paper. (OEM MAF required)	
9.	OEM for CCTV	OEM has to comply technical specifications compliance as per Annexure A on its letter head along with the MAF issued to the bidder. OEM has to supply products as quoted in the MAF. (Required Technical Compliances as per Annexure – A attached on OEM Letter Head be submitted).	
10.	OEM for CCTV	OEM has to provide spare parts support for the quoted solution for at least 7 years after the warranty period and during the 3 years warrantee period from successful installation, testing and commissioning of the system..(Undertaking required from OEM Letter Head).	
11.	OEM for CCTV	For each of the goods/products, bidder shall quote only one specific make and model from only one specific OEM. Providing more than one option shall not be allowed. All goods quoted by the Bidder must be associated with item code and names and with printed literature describing configuration and functionality.	
12.	OEM for CCTV	OEMs of proposed equipment/components should have an office as a registered company in India for last fifteen years as on the bid issuance date. Representation through JV/Distributorship shall not be considered. (Documentary Proof Required).	
13.	OEM for CCTV	- OEM for CCTV shall have authorized CCTV service/ repair facility in nearest metropolitan city of New Delhi or National Capital Region. (Documentary Proof Required).	
14.	Offered CCTV	Offered CCTV solution should be seamlessly integrated with existing CCTV System of IIT Delhi. (OEM Undertaking required on OEM Letter Head).	
15.	Others	Successful Technical bids shall mean the bidder declared technically successful strictly based on the layout, design parameters, OEM technical requirements, terms & conditions and specification given in the tender document. (Certification from OEM for all items other than Camera/VMS/ Network Switches to be attached.)	
16.	Others	All the bidder to confirm that they will have to conduct a proof of concept (POC) for all IP cameras along with Server/NMS/VMS respectively along with software and other accessories. (Undertaking from Bidder on their Letter Head be submitted.)	
17.	Switches	All the Grade Network Switch from CISCO only. (MAF directly from Cisco is required.)

7	<p>VIDEO MANAGEMENT SOFTWARE - Supply, Installation, Testing & Commissioning of Video Management Software for 300 Cameras. The VMS architecture should comprise of centralized or decentralized architecture. The VMS should have system components such as Management Server to manage the system, Recorder or Media Server to stream and store the video feeds from the cameras and Database Server to store meta data information, The VMS should support single site or multi-site deployment scenarios. The VMS should have capability to aggregate videos from multiple sites to the central site for recording or monitoring. The VMS should also have the capability to aggregate the system alerts such as video analytics, user created alerts and system health alerts to the central site, The VMS should have been developed and built on operating system agnostic platform which can run on multiple operating systems environments such as Microsoft Windows, Linux and Unix, The VMS should support single or multiple recorder server deployments. The proposed VMS should support unlimited IP and Analog cameras by augmenting the computing and storage hardware. The proposed VMS should support unlimited number of VMS clients, VMS should support open source DBMS, e.g., Postgre SQL, My SQL besides MS SQL and Oracle. The VMS should be capable of supporting SQL or No SQL databases, VMS should support Failover against temporary disconnection of DBMS Service, without any loss of camera video. As soon as the DBMS service resumes, all data should automatically be synchronized to the Database, Each media server should have its own storage configuration. It should be possible to select storage location/s out of all available storage locations (including Local, DAS, NAS, and SAN storage) for each media server. The media server should support load balancing and fail-safe operation by distributing the video data on all selected storage locations. So, in case of failure of any storage location, the entire video data is not lost, The VMS should have published APIs to interface with external systems such as Command and Control Application, Incident Management System, etc.,</p>	1	LOT

	VMS should be able to detect ONVIF compliant IP cameras automatically, The VMS should have ONVIF Profile S & G compliance, The VMS should support H.265+, H.265, H.264, MJPEG CODECs, The VMS should offer desktop client and web client.				
8	PTZ JOYSTICK - Supply, Installation, Testing & Commissioning of POE based Joystick Controller having Touch wheel for camera & NVR/ Suitable Hardware control, Multiple connectivity options (RS232/422/485 and TCP/IP), Web browser for easy upgrading and configuring, Backlit Keys with pleasant adjustable blue or white LED, Laser cut ergonomic keys which shall be fade free, Min. two nos. Quick Monitor section keys, should have camera function keys for View, Tour, PTZ Call, Alt, Undo, Set, Iris, Focus. Etc. with Touch Pad for Fast Fwd, Reverse, Play actions etc. with all necessary accessories like AC Plug Adaptor, LAN Patch/Crossovers etc. Certification: UL, CE, FCC.	2	Nos.		
9	LED - Supplying, Installation, Testing & Commissioning of 55" LED TV with 1920x1080 full HD resolution and as per specifications attached suitable for mounting on wall including connection etc.	4	Nos.		
10	WORK STATION - Supply, Installation, Testing & Commissioning of Client WorkStation with CPU of Intel Core i7 Processor, With 8GB RAM, 1 GB Graphic Card, and 500 GB HDD.	2	Nos.		
11	HARD DISK - Supply, Installation, Testing & Commissioning of 432 TB Video Hard Disk.	1	LOT		
12	24 PORT SWITCH - Supply, Installation, Testing & Commissioning of 24 Port Switch, Switch should be 1RU with minimum 24 no. of Multigigabits ports with min 2 x 10G SFP+ ports. The uplink port should be upgradable to 2 x 40G QSFP ports, Switching system shall have minimum 640 Gbps of switching fabric and minimum 450 Mbps of forwarding rate, Switch should have minimum 480 Gbps of stacking bandwidth, Switch should have hot swappable 1:1 redundant internal power supply, Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3az, 802.3af, 802.3at, Switch should support port security, DHCP	2	Nos.

	snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security, IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping, IPv6 applications and IPv6 First Hop Security, Switch should be IPv6 Certified/IPv6 logo ready.				
13	<p>12 PORT SWITCH - Supply, Installation, Testing & Commissioning of 12 Port Switch. Switch should be 1RU with minimum 12 no. of SFP ports with min 2 x 10G SFP+ ports. The uplink port shall have minimum 68 Gbps of switching fabric and minimum 50 Mpps of forwarding rate. Switch should have minimum 480 Gbps of stacking bandwidth. Switch should have hot swappable 1:1 redundant internal power supply. Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3af, 802.3at. Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security, IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping and IPv6 applications. Switch should be IPv6 Certified/IPv6 logo ready.</p> <p>Approved Make: CISCO Model No. C3850-12S</p>	1	No.		
14	<p>8 PORT SWITCH - Supply, Installation, Testing & Commissioning of 8 Port managed PoE Switch with 2 SFP port, minimum 8 nos. 10/100/1000 Base-T ports with PoE+ capability and minimum 60W of PoE Power and additional 2 nos. Combo uplink ports loaded with 2 nos. of SMF modules Shall have minimum 20 Gbps of switching fabric and 14.88Mpps of forwarding rate. Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3az, 802.3af, 802.3at. Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard and IPv6 First Hop Security. IPv6 QoS, IPv6 ACL, Multicast Listener Discovery (MLD v1/2) snooping, IPv6 applications and IPv6 First Hop Security. Switch should be IPv6 Certified/IPv6 logo ready.</p>	7	Nos.		
15	<p>24 PORT SWITCH - Supply, Installation, Testing & Commissioning of POE Layer II managed ethernet switch, 24 port RJ45 10/100/1000 T with 2 nos. OFC Port. Switch shall have minimum 24 nos. 10/100/1000 Base-T ports with PoE+ capability and minimum 370W of PoE Power and additional 4 nos. of SFP uplink ports loaded with 2</p>	3	Nos.

	<p>nos. of SMF modules. Shall have minimum 56 Gbps of switching fabric and 80 Mpps of forwarding rate. Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.1x, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3af, 802.3at. Switch should support port security, DHCP snooping, Dynamic ARP inspection, IP Source guard, BPDU Guard, spanning tree root guard IPv6 QoS and IPv6 ACL.</p> <p>Approved Make: CISCO C9200L-24P-4G-E</p>				
16	<p>4 PORT INDUSTRIAL GRADE SWITCH - Supply, Installation, Testing & Commissioning of 4 Port industrial Grade Network Switch shall have minimum 4 nos. 10/100 Base-T ports with PoE+ capability and minimum 60W of PoE Power and additional 2 nos. SFP uplink ports loaded with SMF Modules.</p> <p>Shall have be IP30 rated and shall work on up to 60 deg C temp. in a sealed enclosure. Switch should be DIN Rail mountable. Should support IEEE Standards of Ethernet: IEEE 802.1D, 802.1s, 802.1w, 802.3ad, 802.3x, 802.1p, 802.1Q, 802.3, 802.3u, 802.3ab, 802.3z, 802.3af, 802.3at. Switch should support port security, DHCP snooping, IGMP Snooping, BPDU Guard and spanning tree root guard. Switch shall be IEC 60068-2-6, IEC 60068-2-27, IEC 60068-2-47, IEC 60068-2-64 compliant. Switch shall be IEC 61000-4-5 and NEMA TS-2 compliant.</p>	80	Nos.		
17	<p>POLE - Supply, Installation, Testing & Commissioning of 6 Meter long hexagonal GI POLE with suitable cement concrete foundation including excavation, including supply and fixing of foundation & all civil work suitable for outdoor camera including connection etc. complete as per specifications :</p> <p>Specification - Supply of 80mm Dia GI Pipe pole B class 6 Mtr length duly painted complete with accessories required for installation of CCTV equipments. box mounted up to 1.25 meter from ground level for switch with lock & various cable arrangements for camera & network equipment i/c anti climbing arrangement for protection of system from monkey etc. Vendor should supply all the mounting accessories. as per specifications i/c Erection of 6 mtr. length GI pole in cement concrete 1:3:6 (1 cement: 3 coarse sand: 6 graded stone aggregate 40 mm nominal size) foundation including excavation and refilling etc i/c Providing and making collar with cement concrete (1 cement: 3 coarse sand: 6 stone aggregate 20 mm) of</p>	86	Nos.

	specified size and shape including from work, plastering if required, curing etc. as required				
18	SFP MODULE - Supply, Installation, Testing & Commissioning of Gigabit SFP Module as per specifications complete as required.	154	Nos.		
19	MEDIA CONVERTER - Supply, Installation, Testing & Commissioning of Single mode 10/100/1000 Media Converter	22	Nos.		
20	12 PORT LIU BOX - Supply, Installation, Testing & Commissioning of 12 PORT loaded Fiber LIU Box including connection as per specifications & complete as required.	91	Nos.		
21	ENCLOUSER BOX - Supply, Installation, Testing & Commissioning of 380*380*210 IP66 Enclosure complete with pole mounting accessories.	84	Nos.		
22	OFC PIGTAIL - Supply, Installation, Testing & Commissioning of single mode OFC Pigtail.	200	Nos.		
23	OFC PATCHCORD - Supply, Installation, Testing & Commissioning of OFC Patchcord.	154	Nos.		
24	6U RACK - Supply, Installation, Testing & Commissioning of 6U rack.	12	Nos.		
25	42U RACK - Supply, Installation, Testing & Commissioning of 42U rack.	2	Nos.		
26	POWER CABLE - Supply and fixing/laying of Power Cable 3 Core, Conductor size: 1.5 sq mm, multi strand with standard annealed electrolytic copper conductor suitable for single phase 230V AC supply/ DC supply in existing PVC Conduit/surface etc as reqd.	10000	Per Mtr		
27	12 CORE OFC CABLE - Supply, Installation, Testing & Commissioning of 12 Core OFC single mode Cable in the existing pipe.	8000	Per Mtr		
28	32MM HDPE PIPE - Supply, Installation, Testing & Commissioning of 32mm HDPE Pipe in the existing trench.	8000	Per Mtr		
29	STP CAT 6 CABLE - Supply, Installation, Testing & Commissioning of STP CAT 6 Cable	5000	Per Mtr		
30	Laying of HDPE pipe in ground etc. (Through Trenchless where as required) Size- 32mm	8000	Per Mtr		
31	GPS Scanning of Laid OFC & Other Cables.	5000	Per Meter		
32	1KVA ONLINE UPS SINGLE PHASE - Supply, Installation, Testing & Commissioning of 1KVA Online UPS with 30 min. backup.	40	Nos.		
33	3 KVA ONLINE UPS- SINGLE PHASE - Supply, Installation, Testing & Commissioning of 3KVA Online UPS with 30	1	No.
