

NATIONAL TRAINING PROGRAMME ON Biogas Production, Power Generation and Compressed Biogas Technology

17-19, January 2024

Sponsored by

सत्यमेव जयते

Ministry of New and Renewable Energy
Govt. of India, New Delhi

Organised by

Biogas Training and Development Centre
(BDTC), IIT Delhi

Prof. V. K. Vijay, Coordinator
Dr. Pooja Ghosh, Co-coordinator
Prof. Priyanka Kaushal, Co-coordinator
Prof. Vivek Kumar, Co-coordinator

o Venue o

Biogas Development and Training Centre
Centre for Rural Development and Technology
IIT Delhi
Hauz Khas, New Delhi, India-110016

INTRODUCTION

Energy is an essential factor in the development of the country. Biogas has proved to be a feasible and sustainable fuel in the physical and socio-economic conditions of India. The rising population and small-scale industries are pushing the use of traditional sources of energy beyond the sustainable generation capacity. Amidst all this, biogas technology has gained popularity in India for its multitudes of benefits. Although biogas is seen as the best alternative rural energy resource, various factors have hindered its spread in both the rural and urban sectors. Technical and informational barriers, lack of technical capacity for construction, maintenance, and absence of state-level call centers/service centers for plant repair (trouble shootings) are major obstructions in the biogas development and dissemination in India.

BDTC IIT Delhi

The Biogas Development and Training Centre (BDTC) at Indian Institute of Technology Delhi is actively engaged in research and development for various aspects of biogas-related technologies and their applications. A biogas purification and bottling plant with improved design parameters has been designed, fabricated, and implemented at IIT Delhi campus. BDTC is operating a 25 m³/day kitchen waste biogas plant and gas is upgraded into compressed biogas (CBG) using IITD-developed Water Scrubbing Technology and filled-in a biogas car. The car has been operating on CBG for the last eleven years.

Biogas production, enrichment and bottling facility at BDTC IIT Delhi

Car running on compressed biogas at IIT Delhi

AIM

This programme aims to impart training to govt. functionaries, budding entrepreneurs, supervisors, and consultants to various aspects of biogas technology, the importance of biogas as a fuel, the present status of biogas programmes, interalia details about biogas up-gradation, bottling, power generation, etc. The programme is also intended for field supervisory functionaries involved in the implementation of biogas programmes in India.

HOW TO APPLY

- To register, fill in the registration form and send the scanned copy of the registration form & e-receipt to bdtcitd@gmail.com
- Registration can be done through Google Doc form through the link given below ([National Training Programme \(google.com\)](https://www.google.com))
- The registration form and e-receipt should reach on or before **30 December 2023**.
- Preference will be given to those who are already associated and have field experience with biogas technologies

REGISTRATION FEE

The Participation fee:

Students /Research Scholars/ Academicians	: ₹ 2000 (Two thousand)
Participants from Companies/ Firms/ Industries/ NGOs	: ₹ 5000 (Five Thousand)

Participants are required to pay the fees through online transfer (NEFT/RTGS/UPI) of the requisite amount. Send the payment receipt to email: bdtcitd@gmail.com OR upload it on Google form if registration is done through Google form.

The SNA staff from the states of Haryana, Uttar Pradesh, Delhi, and biogas staff members from states under BDTC IIT Delhi jurisdiction are exempted from the registration fees.

Limited accommodation will be available in IITD Hostels to the participants on a first come first serve basis.

Details for payment through NEFT/RTGS/UPI mode are as follows-

PAYMENT DETAILS:

Name of Account: IITD (IRD) Delhi
Bank Account No. 10773572600
Name of Bank: STATE BANK OF INDIA
Branch: IIT Delhi
Branch Code: 1077
NEFT IFSC Code/RTGS: SBIN0001077
SWIFT Code: SBININBB547
MICR code: 110002156
