

ELSEVIER

Seeking Editors

Join a community advancing science together

Be part of a dynamic network of Editors in India and worldwide, working collaboratively to ensure diverse voices shape the future of research.

Future Editor Workshop

Date & time: **28th November 2025, 3pm - 4:30pm**

Venue: **Dogra Hall, Main Building, IIT Delhi**

Interactive Session with Q&A with Editors.

India is rapidly becoming a global leader in research output with its scholarly contributions growing both in volume and impact reflecting a vibrant and expanding scientific community. We believe that it is only right that Indian researchers play a leading role in shaping the future of academic publishing.

Why Become an Editor?

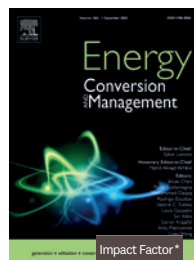

- Play a key role in shaping high-quality research that matters
- Collaborate with a diverse and influential editorial community
- Elevate your academic profile and contribute to global knowledge
- Benefit from Elsevier's dedicated editorial support and resources

What the Workshop Covers

- Editorial roles and responsibilities
- Peer review and manuscript revision processes
- Building and managing effective editorial teams
- Championing inclusion, diversity, and publishing ethics
- Commissioning impactful content and special issues
- Utilizing Elsevier's editorial tools for success
