Implementing Agreement
for
Exchange of Ph.D. Students
between
Indian Institute of Technology Delhi (IITD)
and
Belarusian State University of Informatics and Radioelectronics (BSUIR)

IITD and BSUIR agree to establish a programme for exchange of Ph.D. students based upon the Memorandum of Understanding between the two institutions and in accordance with terms and conditions set forth in this implementing agreement.

IITD and BSUIR agree that student exchange will be as per the guidelines listed below. A home institution refers to the institution where a student is a registered student, and from where he/she is expected to graduate. A host institution refers to an institution that receives a student for a brief period of time to undertake a pre-determined programme of research.

a) Exchange students will be selected by mutual agreement between the home institution and the host institution.
b) An exchange student will continue to be treated as a registered student at his/her home institution.
c) The exchange student will pay tuition and other fees at his/her home institution.
d) An exchange student will be considered as a student/visitor at the host institution.
e) The exchange will be for a period normally ranging from six months to one year. The exchange can take place at any time of the research programme.
f) The exchange student's area of research at the host institution will be determined by mutual consultation between his/her Research Guide at the home institution and his/her "interim" Research Guide identified by the host institution.
g) It is expected that the exchange student would normally have completed his/her course credit requirement at the home institution.
h) IITD and BSUIR will make effort to maintain the reciprocity in numbers of exchange students over the period of the MoU. It, however, will not be insisted upon and will not be dependent upon the areas of research of the exchange students.
i) IITD and BSUIR as host institution would provide free accommodation only in the Institution's hostel/dormitory
This agreement will take effect from the date it is signed by representatives of the two institutions and will remain valid for the same period of the MoU.

Memorandum of Understanding for academic cooperation

between

Indian Institute of Technology Delhi

(New Delhi, India)

and

Belarusian State University of Informatics and Radioelectronics

(Minsk, Belarus)

Indian Institute of Technology Delhi (IITD) and Belarusian State University of Informatics and Radioelectronics (BSUIR) recognize their strengths in research and education in one or more disciplines of science, engineering, and their mutual interest in engaging themselves in academic cooperation.

Therefore, IITD and BSUIR agree to establish a programme for academic cooperation in areas of mutual interest, and in accordance with terms and conditions set forth in this Memorandum of Understanding (MoU). IITD and BSUIR agree:

a) to exchange information on research and educational programmes,

b) to exchange information on teaching, learning material and other literature relevant to their educational and research programmes,

c) to jointly organize short-term continuing education programmes on topics of mutual interest and to invite each other’s faculty to participate therein,

d) to jointly organize seminars, conferences, or workshops on topics of mutual interest and to invite each other’s faculty to participate therein,

e) to jointly propose and engage in research or training programmes sponsored by funding agencies, and to invite each other’s faculty to participate therein,

f) to exchange, on a reciprocal basis, faculty and students for limited periods of time for purpose of education and/or research.

IITD and BSUIR agree that detailed terms and conditions that guide each activity identified above, if required, will be separately agreed upon by the two institutions by signing the implementing agreement for each activity. These terms shall include a description of proposed activity and financial arrangements.
IITD and BSUIR agree to respect each other's rights to intellectual property. Further, the intellectual property rights that arise as a result of any collaborative research or activity under this MoU will be worked out on a case-to-case basis, and will be consistent with officially laid down IPR policies of the two institutions.

Each institution shall appoint one member of its teaching/research faculty to coordinate the programme on its behalf. The coordinator, thus appointed, will periodically review and identify ways to strengthen cooperation between the two institutions.

This MoU will take effect from the date it is signed by representatives of the two institutions. It will remain valid for five years, and may be continued thereafter after suitable review and agreement. Either institution may terminate the MoU by giving written notice to the other institution six months in advance. Once terminated, neither IITD nor BSUIR will be responsible for any losses, financial or otherwise, which the other institutions may suffer. However, IITD and BSUIR will ensure that all activities in progress are allowed to complete successfully.

Should there be a dispute relating to any aspect of academic cooperation, Director, IITD and Vice Chancellor/President, BSUIR will jointly resolve the dispute in a spirit of independence, mutual respect, and shared responsibility.

This MoU is signed subject to approval of the respective academic/administrative bodies.

Implementing Agreement
for
Exchange of Undergraduate & Postgraduate Students
between
Indian Institute of Technology Delhi
and
Belarusian State University of Informatics and Radioelectronics (BSUIR)

IITD and BSUIR agree to establish a programme for exchange of undergraduate and postgraduate students based upon the Memorandum of Understanding between the two institutions and in accordance with terms and conditions set forth in this implementing agreement.

IITD and BSUIR agree that student exchange will be as per the guidelines listed below. A home institution refers to the institution where a student is a registered student, and from where he/she is expected to graduate. A host institution refers to an institution that receives a student for a brief period of time to undertake a pre-determined programme of study or research.

a) Exchange students will be selected by mutual agreement between the home institution and the host institution.

b) An exchange student will continue to be treated as a registered student at his/her home institution.

c) The exchange student will pay tuition and other fees at his/ her home institution.

d) An exchange student will be considered as a student/ visitor at the host institution.

e) His/her programme of study at the host institution will be determined by mutual consultation between his/her academic advisor at the home institution and his/her "interim" academic advisor identified by the host institution.

f) The host institution will evaluate an exchange student's performance in each course or module, award a letter grade or marks, and issue a letter to that effect.

g) This agreement also facilitates credit transfer of exchange students between the two institutions. The home institution may award to the exchange student credits earned at a host institution based on its credit transfer policy.

h) If an exchange student chooses to undertake research at the host institution, his area of research will be determined by mutual consultation between his/ her Research Guide at the home institution and his/ her "interim" Research Guide identified by the host institution. The host institution will evaluate the exchange student's performance in the research, and issue a letter to that effect, together with a technical "report" of the research carried out,
i) If an exchange student has undertaken research, then the home institution will take note of the performance evaluation and the technical report, and take steps in accordance with its own procedures.

j) IITD and BSUIR as host institution would provide free accommodation only in the Institution’s hostel/dormitory

This agreement will take effect from the date it is signed by representatives of the two institutions and will remain valid for the same period of the MoU.
