Professor, Department of Energy Science & Engineering

Dear student,

Welcome to IIT Delhi! Congratulations to you on your hard work and your excellent performance that has got you here. You are among the select few who made it to our 2022 batch.

At our Institute, you will find an enabling academic environment, a flexible curriculum, amazing peers and seniors, engaging and knowledgeable faculty, and helpful staff. The lectures, tutorials and classroom interactions, laboratories, assignments, and tests will be a part of your academic journey. We will provide an opportunity for your all-round development with excellent facilities for sports, cultural, co-curricular and extracurricular activities. You will have access to our state-of-the-art research facilities, our well-equipped modern library and high-power computing resources. You will find opportunities to explore, develop and pursue your interests and passion; with help from others who are equally excited.

Please approach your new environment with an open mind and make the most of the opportunities on the campus. We are delighted to enable your journey of learning. Please don't hesitate to reach out to your friends, seniors, wardens, faculty members whenever you need any help or advice.

I know many of you will be stepping out of your homes and your comfort zones for the first time. You will find our campus a home away from home where we will make the extra effort to help you settle in. I am sure that these four/five years will be memorable and will be among the best years of your life. I wish you all the best for your future and look forward to welcoming you in-person.

Best Wishes.

(Rangan Banerjee)
